

JAP FORCES START NEW OFFENSIVE

FIND CHILD BRUTALLY SLAIN AFTER KILLER'S NOTE DESCRIBES CRIME

Model School Girl Victim Of Fiend; Claws Followed

NEW YORK, Feb. 10.—A post card on which a ghoulish killer revealed the murder of a 13-year-old school girl regarded as a model child in her neighborhood today was the only clue to the slayer.

Pretty Maria Rosales was found dead by police in an untenanted apartment of a house just east of Fifth Ave. in the upper city. Her head was bashed with a gas stove burner to which a lead pipe was attached. Her face was brutally scratched.

Her body, scantily clad, was discovered in a bathtub partially filled with water; examination showed the little girl was mistreated before meeting her frightful death. Already aroused by the recent horrible murder of a 5-year-old girl in Brooklyn, the entire quarter of the city was thrown into feverish excitement by the slaying. A heavy police guard was needed to control the frenzied crowds gathered in front of the girl's house.

The gruesome find was made by authorities when post office officials turned over a plain unsigned postal card addressed to the janitress of the building where the girl was found.

"Go to the top floor apartment. You will find something that will surprise you," the message was scrawled in pencil, read. In one corner of the card was written: "It's a murder."

Maria was reported missing last Monday night by her aunt and Uncle, Mr. and Mrs. Ernesto Fernandez, with whom she lived since the death of her mother. Her father, Robert Rosales, an unemployed waiter, is now in Detroit.

The girl had been sent on an errand by her aunt. When she failed to return after a few hours, the police were notified.

The house in which the body was found is within a block of Maria's home. Alice Alvarez, janitress to whom the murderer's post-card was addressed, told police she did not know the girl, or how she got into the house.

A battered old suit-case was found in the apartment when the killing was discovered. It bore a Lynchburg, Va., hotel stamp and a tag with a man's name and New York address. Police searched for the bag's owner, though realizing the suit-case may have been abandoned there long ago.

Police Commissioner Mulrooney himself took charge of the murder investigation. Twenty men were detained but almost all released after brief questioning.

COLL DESERTED BY FAIR WEATHER PALS

NEW YORK, Feb. 10.—Deserted by the few members of his gang still alive, Vincent Coll, slain "mad dog" of the underworld, was to be buried tomorrow without the pomp that usually marks the funeral of "big shot" racketeers.

At the undertaking establishment where his body lay in a cheap coffin today, only one wreathe was received. It came from Coll's sister, Mrs. Florence Redden, who took charge of the burial arrangements.

Coll, who at 23 boasted of his reputation as the "tough kid" and whose feud with Dutch Schultz, rival gang leader, over beer territory claimed a score of lives, had only a little more than \$100 when killed by slugs from a sub-machine gun.

BISCHOFF BEGINS TERM IN HOSPITAL

LIMA, O., Feb. 10.—With his future hanging in the balance, Charles Bischoff of Cincinnati, confessed murderer of six-year-old Marion McLean, was subjected today to the first of thirty days of the closest possible watch of all-enists at the Lima State Hospital for the criminal insane.

Bischoff, who allegedly confessed murdering the child last December, was brought here late yesterday after five Cincinnati judges, conducting a sanity hearing failed to agree on his mental status.

If he is found sane, Bischoff can be returned to Cincinnati and tried for first degree murder under terms of the order by which he was sent here.

CULBERTSON ILL

NEW YORK, Feb. 10.—Ely Culbertson, who recently emerged the winner in the spectacular marathon bridge tournament against Sidney Lenz, will be taken to a hospital Friday to undergo observation for gastric ulcers, it was learned today.

ENVOY TO JAPAN

Joseph C. Grew, above, ambassador to Turkey, will succeed Cameron Forbes, retiring ambassador to Japan.

EDGAR WALLACE IS DEAD; FAMOUS FOR NOVELS AND PLAYS

Pneumonia Fatal To English Author In Hollywood

HOLLYWOOD, Feb. 10.—Edgar Wallace, 57, English author and playwright, died today at his Beverly Hills home.

Wallace had been in a coma since Monday with double pneumonia, following an attack of influenza. Shortly before he died Wallace opened his eyes and smiled faintly to acknowledge he understood his secretary, Robert Curtis, who brought word that Mrs. Wallace had sailed from London today.

At Wallace's bedside were Curtis, Dr. E. C. Fishbaugh, and Walter Huston, the screen and stage star.

Wallace's body was to be removed to a Hollywood mortuary to await funeral instructions from Mrs. Wallace. Oxygen had been administered since Monday to sustain life but during the night he failed to respond and sank back into unconsciousness.

Coming to Hollywood three months ago to write "thrillers" for a motion picture company Wallace amazed the producers and other authors by the speed with which he wrote his plays. He had completed three and was preparing to start work on a fourth when he became ill last week with a cold that developed into virulent type influenza and double pneumonia.

Wallace had worked hard all his life. He had sold newspapers, delivered milk, and was a cabin boy on a trawler that cruised the North Sea.

Kipling inspired Wallace to write and when the Boer War, in which he served as a private, was ended, he founded the first English newspaper to be published in South Africa. There he began writing the mystery and adventure stories that brought him fame and wealth. He wrote prolifically and did not know himself how many books and short stories he had written.

INVESTMENT FIRM HEAD IS ARRESTED

CHICAGO, Feb. 10.—Fred L. Wilk, Jr., head of an investment concern which is in the hands of receivers, was held by police here today on charges of embezzlement.

Forty investors, whose losses are said to aggregate \$500,000, have signed complaints against Wilk, authorities said.

The concern, Wilk, Clarke and Co., has branch offices in Cincinnati, Columbus, and Elyria, O.

TWO GRAND SLAMS

COLUMBUS, O., Feb. 10.—Lightning may not strike twice in the same place, but grand slams do. Proof was offered today in the scores of the Ohio bridge tournament now under way here. D. E. Brungs and George A. Wood made two grand slams almost in succession.

JAPS OFFER ARMS PROPOSAL

Fighting Unit Of Chinese Women Is Wiped Out In Defense Of Village Home

By EDNA LEE BOOKER
International News Service
Special Correspondent

SHANGHAI, Feb. 10.—A fighting unit of twenty-four Chinese women soldiers was wiped out in a brave defense of the village of Woosung when it was invaded by Japanese forces two days ago, it was revealed today.

The modern Amazons, fully armed with old-fashioned rifles and long bayonets, had been guarding the road on the outskirts of the village, according to Carl Lemcke and Harvey Duncan, American business men who encountered them Monday.

Today the two Americans returned to the village for the purpose of photographing the strange soldiers, only to learn that Japanese now occupied the posts which had been held by the women troops and that the women had been wiped out in the Japanese advance.

The women soldiers halted Duncan and Lemcke, pointing their bayonets menacingly, as the men attempted to proceed along the Woosung Road. They were ordered not to go on. The men got out of their car, amazed to find the strange soldiers.

They were garbed in ordinary blue coolie cloth coats and the

trousers of countrywomen. Some wore earrings, and some bobbed about on tiny, closely-bound feet. All were heavily armed.

The two men had no interpreter, and could not talk their way past the persistent female guard. They were forced to return to Shanghai. The Americans said they believed the women were on advance guard to warn their menfolk of the village of approaching danger.

The women were simple country-folk, the Americans said, who had exchanged the hoe for the gun in an emergency to protect their homes. They had defended them to the death.

DELEGATION CHIEF SAYS NATION EAGER TO FURTHER EFFORT

Italy Program Most Sweeping Presented At Geneva

GENEVA, Feb. 10.—With a significant veiled reference to Soviet Russia, the spokesman of Japan laid his country's views on disarmament before the world disarmament conference here today.

Tsunoo Matsudaira, Japanese ambassador to Great Britain and chief of Japan's delegation to the arms parley, declared that "notwithstanding the unfortunate situation far out in eastern Asia," Japan was "as eager as ever" to further the cause of disarmament.

"However," he added, "particular attention should be directed to the armed strength and political status of neighboring countries which have a dominant influence upon the safety of others."

Matsudaira followed Dino Grandi of Italy, Premier Mussolini's youthful foreign minister laid before the conference a sweeping plan of disarmament, going farther in his demand for abolition of land, sea and air instruments of destruction than any other spokesman heard thus far, seconding the proposals made by Great Britain and the United States and augmenting them with some of his own.

Obviously realizing his position was unique in pleading for disarmament while his country's army and navy were at grips with Chinese troops in Shanghai, Matsudaira chose his words with the utmost care and held the undivided attention of the assemblage from start to finish.

"Unfortunately," he said, "just at this moment far out in eastern Asia there obtains a disturbed condition."

"The facts of the case and the attitude of Japan in the matter have been fully communicated to the council and have now been taken up, therefore I refrain from further reference to the matter at this conference."

"But at the same time I wish to make it clear that notwithstanding the unfortunate situation, Japan is as eager as ever to further the cause of disarmament and her representatives at this conference are ready to co-operate with all the powers to arrive at an arrangement through which armaments could be effectively limited and reduced."

"The Japanese delegation favors adoption of the draft convention as a foundation upon which the work of the conference could be built, convinced that it will facilitate the progress of the deliberations."

Matsudaira then proceeded with an exposition of Japan's disarmament plans.

"The personnel of our army," he said, "represents 2.8 per cent of

(Continued On Page Five)

PERRY COUNTY MINERS QUIT; STRIKE GAINS

Expect 10,000 Will Join Movement This Week

NEW LEXINGTON, O., Feb. 10.—Three hundred more Perry County miners joined the southern Ohio strike against reduced pay in the coal mines today, promising to boost the total of strikers to 10,000 before the end of the week.

Workers at mines 51 and 52 of the Manhattan Coal Co. voted unanimously to lay down their tools this morning following a mass meeting at Tropic, O., when they were addressed by David Watkins, union mine official.

The Hocking Valley strike first spread to Perry County yesterday when pickets surrounded the Buckingham Coal Co. mine at Congo. At the end of the day's work, 200 voted to walk out in sympathy with the strike at Nelsonville and Athens.

Dozens of wagon miners will join the strike in Perry County before the day is over, union officials predicted.

All phases of the walk-out and picketing were peaceful, county officials reported. They said there were no signs or threats of violence at any time.

Fearing trouble, however, Ohio National guard officials have sent Capt. E. A. Silbaugh of Lancaster and Lieut. D. P. Whiting of Marietta into this section to assist Col. John B. Shettler as the state's observer of strike activities.

Extra deputies were employed by Sheriff Clifford Wilson and close watch was maintained at the Buckingham mine and Manhattan Mines.

Strikers all remained quiet at Athens and Nelsonville, in the southern field, and at New Philadelphia, in the eastern field, according to reports reaching local and county authorities.

ATHENS, O., Feb. 10.—Declaring themselves "disgusted" with labor troubles, officials of the Ohio Collieries Co. today closed mine No. 255 at Drydock, O., near here.

The action followed a "sympathy strike" started by 600 employees who joined other Hocking Valley miners in protest against a general wage cut.

We are going to shift our activities to eastern Ohio," an official of the company said in announcing the closing of the mine. "We can get 10,000 men to work for us there if we wish, even 20,000, without any labor troubles at all."

Officials declared the order closing the mine is a permanent one which will not be rescinded.

GIBBONS AFIELD IN SHANGHAI ZONE

NEW YORK, Feb. 10.—Efforts were made today to reach Floyd Gibbons, International News Service correspondent in the Shanghai war zone, who is somewhere out beyond the lines of communication in quest of news.

The following message was dispatched to Dixon Hoste, staff correspondent in Shanghai, by New York City, Feb. 10, International News Service director of foreign service: "Any word from Gibbons. We're waiting for his latest. Parke."

And here was the answer: "Gibbons out in field somewhere. Hoste."

REPORTS SAVING

MARIETTA, O., Feb. 10.—"Home folks" of Governor George White knew all about the state's financial worries today. Speaking at a victory dinner given by Washington County Democrats, the governor told his home town he was "glad to report" that his administration has saved taxpayers \$2,200,000.

GIBBONS OFTEN SPEAKS OF HER

Mrs. Theodore Mayer of Boston is frequently mentioned in the colorful radio dispatches of Floyd Gibbons, famous war correspondent who has been broadcasting his stories from Shanghai. She is Gibbons' "sister Zelda." She follows the daily reports of her noted brother with keen interest.

MYSTERY OF DEATHS OF THREE BOYS BECOMES DEEPER RIDDLE

COLUMBUS, O., Feb. 10.—The cause of the strange deaths of three Mt. Vernon, O., boys became more and more of a riddle today. The children—Stanley, 11, Raymond, 8, and Marion, 6, sons of Mr. and Mrs. Clarence Passig, Knox County farmers—all died within two weeks of each other. They had the same symptoms but what caused them and the subsequent deaths has medical science baffled.

"There apparently isn't any answer," Dr. Ernest Scott, white-haired veteran of the Ohio State

University college of medicine faculty, told International News Service today.

A complete autopsy will probably have to be performed as a last resort to solve the mystery, he said. The autopsy will be recommended to Knox County authorities "to find whether there is anything contagious in the background."

Practically the same opinion was given yesterday by Dr. Finley Van Orsdal, head of the communicable disease division of the State Health Department. He was the first outsider called into the case after the third boy, six-year-old Marion, died.

It was first believed the three boys died of poisoning—perhaps from "snake-root," or from the effects of mysterious "red berries" eaten at school—but Dr. Van Orsdal's examination failed to reveal poison of any kind.

If a complete autopsy is conducted in keeping with the recommendation which Dr. Scott expects to make late today or tomorrow, the skull cap of Marion Passig will be removed and other examinations will be made.

Although the three Passig boys have died, no other members of the family has taken ill.

DR. GEORGE KNIGHT DIES; WAS FORMER TEACHER AT O. S. U.

Professor Emeritus Summoned After Long Record

COLUMBUS, O., Feb. 10.—Dr. George Wells Knight, professor emeritus of the history department at Ohio State University, and for forty-three years an active member of the faculty, died in a local hospital today, from pneumonia.

Since 1885 Dr. Knight was continuously associated with the University as professor, acting dean, dean, summer school director, and chairman of the history department.

In forty-three years of active classwork, it was estimated that he taught 16,000 students, including several members of the present university board of trustees, several deans and dozens of members of the present faculty.

President George W. Rightmire served under Dr. Knight as a history instructor after having been a student in one of his classes nearly forty years ago.

Joining the university faculty in 1885 with a class of four students, Dr. Knight saw Ohio State grow from a school with a faculty of twenty-five and a student body of 200 to one with a faculty of 1,500 and a student body approaching 15,000. At his own request, Dr. Knight was relieved of the chairmanship of the history department in 1925 so he might devote more time to teaching. Four years ago he became professor emeritus.

MAN CONVICTED OF WIFE MURDER

CLEVELAND, Feb. 10.—Found guilty of the second degree murder of his wife, Mary, Thomas M. Shand, 46, one time wealthy contractor, today faced life imprisonment in the Ohio Penitentiary.

With an emphatic denial of his guilt, Shand heard the verdict of a jury of six men and six women who had deliberated more than four hours on the case.

"I loved my wife and always have. I am not guilty, and it is not a just verdict," Shand told Common Pleas Judge Lee E. Skeel.

WALKER DENIES HE WILL SEEK OFFICE

NEW YORK, Feb. 10.—Mayor James J. Walker, who planned to visit Lake Placid today, emphatically denied he is a candidate for the vice-presidential nomination.

"I've never given the matter any thought," he declared. "I've never talked about it, never discussed it."

"I'm as busy as any man in the world taking care of the city's business without regard to national politics."

He said he intended to go to the Democratic convention in Chicago either as a delegate or a spectator.

POSTPONE HEARING

SPRINGFIELD, O., Feb. 10.—At the request of Prosecutor Orville Wear, who was busy with another case, the hearing of Grover Fleming, publisher of the Ohio Examiner who is under arrest charged with circulating a false rumor about a national bank, was continued until February 16 in police court yesterday.

CAMPAIGN TO DRIVE OUT CHINESE PLAN OF SUDDEN ATTACK

Heavy Bombardment Launched Along Entire Front; American Infantry Takes Over Guard Duty; Relieve Volunteers

SHANGHAI, Feb. 10.—(5:34 p. m.)—Sharply at five o'clock tonight the heaviest guns of the Japanese forces boomed out what was believed to be the beginning of an extensive final attempt to drive Chinese troops out of the Shanghai area.

The heavy guns furiously shelled the Chinese positions in the northern section of the Chapei area, and simultaneously a continuous machine-gun fire broke out along most of the sixteen-mile front from Shanghai to Paoshan.

The attack came suddenly but not unexpectedly following a day and night of comparative quiet.

Japanese officials had announced they were about to launch an offensive which would not be let down until the Chinese were driven at least twenty miles from Shanghai.

While guns fired only occasionally through the early part of the day, heavy reinforcements of blue-jackets and marines were believed to have been landed along the Whangpoo banks.

Many new fire immediately broke out in the Chapei area behind the North Station following the renewed bombardment, lighting up the sky.

It was announced today that American troops of the Thirty-First Infantry tomorrow would take over half of the sector now garrisoned by volunteers, who are holding the dangerous area immediately along the North Station front.

When the Americans take over the guard many of the volunteers will return to their office work.

Volunteer corps maintained a heavy guard throughout the banking area today.

The comparative inaction of the Japanese forces lately was attributed to the paradox that their equipment was too modern, i. e., it is unsuited to the rough and boggy ground north of Shanghai, where they have tried to drive Chinese back.

High-powered motor lorries and tractors stuck in the mud, and were extracted only with great difficulty, while Japan's most modern guns were not suited for the guerrilla warfare the Chinese waged.

Japanese today awaited the arrival of more suitable equipment, meanwhile bombing and shelling the Chinese.

The area along the railway between the North Station and Markham Road junction suffered heavily along with the already ruined Chapei district.

Correspondent Is Flown Over War Scarred Area

(Editor's Note—John Goette, International News Service staff correspondent, first newspaperman of any nation to fly over the Shanghai battlefield, flew back to Shanghai from Nanking today, and sent the following dispatch):

By JOHN GOETTE
International News Service
Staff Correspondent
Copyright, 1932, by I. N. S.

SHANGHAI, Feb. 10.—Our Keystone air yacht made the flight from Nanking to Shanghai (about 160 miles by air line) in one hour and thirty-eight minutes today which is a record for large amphibians in the Far East.

The weather was clear but fate intervened as it did yesterday. Though the Chapei district of Shanghai was in clear sight there was no fighting when we passed over that section this forenoon and not a single Japanese plane was in sight.

The fires I observed yesterday in

flying to Nanking had been completely extinguished.

It was several hours after I landed before fighting was resumed in Chapei.

Arriving at the Langhua airport, up the river from Shanghai I saw Chinese defenders of the arsenal there feverishly entrenching behind mounds of earth along the river banks near the runways of the China National Aviation Co., which extend from the hangars into the water. This was the result of an incident yesterday which American mechanics and pilots witnessed while at work.

A Japanese captain, Takahashi, was proceeding by launch to a Japanese river boat which had been tied up opposite the American airport for several months when Chinese troops, a few feet from the Americans, suddenly opened fire on the launch.

Takahashi was killed outright. The Langhua troops fear Japanese destroyers in the Whangpoo will attack their position today in reprisal.

China Will Not Declare War Nanking Announces

NANKING, Feb. 10.—"China's national policy in the future will be to resort to armed resistance when pressed by an alien invasion," Wang Chin-Wei, chairman of the executive Yuan (corresponding to a premier in Europe) told International News Service in an exclusive interview today.

Despite the departure of most

of the members of the Chinese government from Nanking Wang Chin-Wei is remaining at his post here though the guns of Japanese warships in the Yangtze River are trained upon the building where he has his offices.

The present government, Wang told International News Service, has reconsidered the decision to declare war on Japan.

"We shall never declare war unless Japan does," he said. "The Japanese are now comparable to burglars forcing their way into China's house, leaving us no alternative but to defend ourselves."

"Japan is the aggressor. China is acting in self-defense. Japan has violated the nine-power pact, the Kellogg pact and defied the League of Nations. China is now entitled to ask friendly nations, including the United States, what further steps they intend to take."

STUDENT SEVERELY INJURED BY BLAST

URBANA, Ill., Feb. 10.—A E. Knaut, Salem, Ohio, a graduate student at the University of Illinois, was in a hospital here today in a critical condition.

An assistant in the chemistry department, he was seriously injured yesterday when chemicals with which he was working, exploded.

His left hand was blown off by the explosion and he was burned about the face and chest.

BISHOP CANNON SUE

NEW YORK, Feb. 10.—The Roanoke Publishing Co. has filed suit for \$250,000 against Bishop James Cannon, Jr., charging he conspired with the American News Co. to stop distributing the complaining concern's new periodical, "Inside Stuff."

WASHINGTON, Feb. 10.—President Hoover today signed a bill appropriating \$1,000,000 for federal participation in the Chicago World's Fair.

CAMPAIGN TO DRIVE OUT CHINESE PLAN OF SUDDEN ATTACK

Heavy Bombardment Launched Along Entire Front; American Infantry Takes Over Guard Duty; Relieve Volunteers

SHANGHAI, Feb. 10.—(5:34 p. m.)—Sharply at five o'clock tonight the heaviest guns of the Japanese forces boomed out what was believed to be the beginning of an extensive final attempt to drive Chinese troops out of the Shanghai area.

The heavy guns furiously shelled the Chinese positions in the northern section of the Chapei area, and simultaneously a continuous machine-gun fire broke out along most of the sixteen-mile front from Shanghai to Paoshan.

The attack came suddenly but not unexpectedly following a day and night of comparative quiet.

Japanese officials had announced they were about to launch an offensive which would not be let down until the Chinese were driven at least twenty miles from Shanghai.

While guns fired only occasionally through the early part of the day, heavy reinforcements of blue-jackets and marines were believed to have been landed along the Whangpoo banks.

Many new fires immediately broke out in the Chapei area before the North Station following the renewed bombardment, lighting up the sky.

It was announced today that American troops of the Third Infantry tomorrow would take over half of the sector now garrisoned by volunteers, who are holding the dangerous area immediately along the North Station front.

When the Americans take over the guard many of the volunteers will return to their office work.

Correspondent Is Flown Over War Scarred Area

(Editor's Note—John Goette, International News Service staff correspondent, first newspaperman of any nation to fly over the Shanghai battlefield, flew back to Shanghai from Nanking today, and sent the following dispatch):

By JOHN GOETTE
International News Service
Staff Correspondent
Copyright, 1932, by I. N. S.

SHANGHAI, Feb. 10.—Our Keystone air yacht made the flight from Nanking to Shanghai (about 160 miles by air line) in one hour and thirty-eight minutes today which is a record for large amphibians in the Far East.

The weather was clear but fate intervened as it did yesterday. Though the Chapei district of Shanghai was in clear sight, there was no fighting when we passed over that section this forenoon and not a single Japanese plane was in sight.

The fires I observed yesterday in flying to Nanking had been completely extinguished.

It was several hours after I landed before fighting was resumed in Chapei.

Arriving at the Langhua airport, up the river from Shanghai I saw Chinese defenders of the arsenal there feverishly entrenching behind mounds of earth along the river banks near the runways of the China National Aviation Co., which extend from the hangars into the water. This was the result of an incident yesterday which American mechanics and pilots witnessed while at work.

A Japanese captain, Takahashi, was proceeding by launch to a Japanese river boat which had been tied up opposite the American airport for several months when Chinese troops, a few feet from the Americans, suddenly opened fire on the launch.

Takahashi was killed outright. The Langhua troops fear Japanese destroyers in the Whangpoo will attack their position today in reprisal.

China Will Not Declare War Nanking Announces

NANKING, Feb. 10.—China's national policy in the future will be to resort to armed resistance when pressed by an alien invasion," Wang Chin-Wei, chairman of the executive Yuan (corresponding to a premier in Europe) told International News Service in an exclusive interview today.

Despite the departure of most of the members of the Chinese government from Nanking Wang Chin-Wei is remaining at his post here though the guns of Japanese warships in the Yangtze River are trained upon the building where he has his offices.

"Japan is the aggressor. China is acting in self-defense. Japan has violated the nine-power pact, the Kellogg pact and defied the League of Nations. China is now entitled to ask friendly nations, including the United States, what further steps they intend to take."

AMERICA SHIPPING ARMS INTO ORIENT

WASHINGTON, Feb. 10.—American arms manufacturers continued their shipment of munitions to the Orient today, without official protest, while the state department sought further "peace" conferences with British and Italian envoys, to terminate the loss of life in Shanghai and Manchuria.

A resolution presented by Rep. Fish (R) of New York, to the house committee on foreign affairs providing for the prohibition or arms shipments to nations at war, was tabled at the request of Secretary of State Stimson.

Rep. Linthicum (D) of Maryland, chairman of the committee, explained that the committee tabled the resolution when the state department asked the committee be given further information regarding treaties.

NEAR 102nd BIRTHDAY

LANCASTER, O., Feb. 10.—George Crow, Fairfield County's oldest resident, got ready today to celebrate his 102nd birthday. A simple observance will be held tomorrow at the home of his daughter, Mrs. Ida Blackstone, with whom he resides at Carroll, O.

BISHOP CANNON SUED

NEW YORK, Feb. 10.—The Ro-mark Publishing Co. has filed suit for \$250,000 against Bishop James Cannon, Jr., charging he conspired with the American News Co. to stop distributing the complaining concern's new periodical, "Inside Stuff."

SECOND COMING OF CHRIST POSITIVE EVANGELIST SAYS

"The second coming of Christ is the emphatic doctrine of the New Testament," said the Rev. Ralph E. Stewart to a large audience at the Tabernacle, E. Third St., Tuesday evening. He said in part: "It is mentioned and referred to more than 350 times in the New Testament and one verse out of every thirty speaks of it. The church

"Crusade for Christ" TABERNACLE Xenia E. Third St. Wednesday: 10 a. m. Prayer meetings in the home. 4 p. m. Children's booster meetings. 7:15 p. m. High School and young people's night. Subject: "Life's Choices." Mr. Stewart speaking.

makes much of baptism but in all of Paul's epistles baptism is only mentioned or referred to thirteen times while the return of the Lord is mentioned fifty times.

"The curses on the Jews were brought to pass literally, so also will be the blessings. The scattering was literal, so also will be the gathering. The pulling down of Zion was literal, so also must be the building up. The first coming was literal, visible and personal and what right has anybody to conclude that His second coming will not?"

"Hear the angels and while they looked steadfastly toward heaven as He went up, behold, two men stood by which said, this same Jesus, which is taken from you into heaven, shall so come in like manner as ye have seen Him go into heaven." Acts, 1:10-11. We are not told when Jesus will come, but we are told that His coming is sure and we are charged to be ready." Wednesday evening the Rev. Mr. Stewart will preach on "Is Sin a Skin Disease?" Cottage prayer meetings will be held in the morning and children's meetings in the afternoon. Thursday evening is high school and young people's night. Friday is Sunday School and church night.

A large delegation from Spring Valley attended the services Tuesday evening.

TRINITY LEAGUE TO MEET ON THURSDAY

Paul Beckwith, pianist with the evangelistic party conducting services at the Tabernacle, will attend the meeting of Trinity Prayer League at Trinity M. E. Church Thursday evening from 7 to 7:15 o'clock, it is announced. A special feature will be the singing of choruses. All young people of the city are invited and each is asked to bring Bible and pencil as Bible study is also a feature of the service.

After the service the group will attend the Tabernacle meeting in a body where seats will be reserved for them. The League meeting will start promptly at 7 p. m. and at least fifty young people are expected to be present.

INGALLS EMPLOYS PUBLICITY CHIEF

PORTSMOUTH, O., Feb. 10.—A publicity director was a part of the entourage of David S. Ingalls when the Republican gubernatorial candidate took off to resume his campaign flight in southern Ohio.

J. Joyt Cummings, former Columbus newspaper man, has been employed to handle the press relations of Ingalls' campaign, it was announced. Ingalls was scheduled to speak today at Middletown, Thursday, at Delta, Friday at Toledo and Saturday at Akron.

WILL HEAR REPORT

Annual report of City Manager M. C. Smith, intended to cover in a general way the activities of the various city departments, and containing a summary of public finances for the year ending December 31, 1931, will be presented to City Commission for approval at the bi-monthly meeting Thursday night.

EYES CONGRESS

Vincent Bendix, Chicago capitalist, inventor and manufacturer, has announced his candidacy for congress from the Tenth Illinois district. Bendix is prominent in Democratic politics.

FIRST PHOTO OF SANTIAGO QUAKE DAMAGE

SECOND ARTICLE IN SERIES DESCRIBES TAX ON TANGIBLES

(Editor's note: Following is the second of a series of explanatory articles presenting an easy digest of Ohio's new classified tax law.)

Under provisions of Ohio's new classification tax law, tangible personal property will be taxed according to the following method:

MERCHANT			
Personal Property	Basis of Value	Per Cent of Value	Taxation Rate
Merchandise	Inventory or average value	70% as real estate	
Furniture & Fixtures	Depreciated book value	70% as real estate	
Equipment e. g. gas stations	Depreciated book value	70% as real estate	
(See below for intangibles).			
MANUFACTURER			
Tools and Machinery	Depreciated book value	50% as real estate	
Materials	Inventory or average value	50% as real estate	
Finished products	In factory or warehouse	50% as real estate	
	in county		
Finished products	Outside factory or warehouse	70% as real estate	
	in county		
Shop equipment		50% as real estate	
Office fixtures	Depreciated book value	70% as real estate	
(See below for intangibles).			
AGRICULTURIST			
Farm tools and machinery		50% as real estate	
Farm products		50% as real estate	
(Domestic animals)	Used in agriculture	50% as real estate	
(Domestic animals)	Not used in agriculture	70% as real estate	
(\$100 exemption)			
(See below for intangibles).			
OTHER BUSINESS OR PROFESSION			
Furniture and Fixtures		70% as real estate	
Books		70% as real estate	
(See below for intangibles).			

Following is the new method of taxing intangible property: (To be listed by owner) Money (ready cash), current credits less current debts: per cent of value—100%; taxation rate—30% per \$100.

Stocks, bonds, mortgages, notes—real or personal (yielding income); taxation rate—5% of income. (Will be listed by corporation) Deposits in Ohio banks: per cent of value—100%; taxation rate—20 cents per \$100.

PLAN CAMPAIGN TO CHECK DIPHTHERIA

A campaign of immunization against diphtheria will be carried on in the public schools of Bowersville, Jamestown, Ross Twp., Cedarville, Yellow Springs and Osborn the week commencing February 15.

The project will be in charge of the Greene County health department with the cooperation of Parent-Teacher Associations and local physicians. A worker from the state health department will also assist.

It is desirable, health officials say, for parents who can do so to have the vaccination performed by their family physician at his office. Otherwise the work will be done at the various schools. Parents are also urged to have children under school age immunized at this time.

NEW LOWS IN HAIRCUTS MEXICO, Mo.—New lows in the "haircut and shave" market were established during a barber shop rate war here, with one leading shop posting a 15-cent price for haircuts. Ten cents was the top for a shave.

Rushed to Atlanta, Ga., by airplane, and from there by telephoto, this picture shows some of the damage done by the series of earthquakes that shook the city of Santiago, Cuba, leaving a small loss of life but tremendous property damage. Not a building was left undamaged by the tremors. The picture is a view of wreckage along a main thoroughfare. The United States rushed aid.

JEWIS CARNIVAL AT DAYTON SUNDAY

The second annual Jewish carnival sponsored by the sisterhood of the Wayne Ave. Synagogue Dayton, will be held at the Graystone Ballroom, Dayton February 14, at which Jewish people of many cities surrounding Dayton will be guests.

Michael Hauer's Orchestra will furnish dance music and there will be cards for those who do not care to dance. A luncheon will be served and various refreshment booths operated.

P. T. A. ENJOYS WASHINGTON PROGRAM.

A program portraying scenes from the life of George Washington, was presented by pupils of McKinley School as a feature of the P. T. A. meeting in the school auditorium Monday afternoon. The program opened with a selection by a toy orchestra, composed of pupils of Miss Marjorie Douthett's third grade with David Adair as leader.

Songs were sung by pupils of Miss Mary Rector's third grade and Miss Ollis Hart's third grade. In a pageant portraying scenes from the life of the "Father of Our Country" Willard Bennington was announcer. The scene of Washington's birth was enacted by Jack Weber, Jack Osborne, Russell Metty and Ernest Pope. Billy Meahl and Jerry Martin enacted the scene of the hatchet and the cherry tree and Warren James read a poem while this scene took place.

Following a song by pupils of Miss Louise Waddle's first grade the scene "Washington the Surveyor" was presented by Trenton Williams, Richard Simson and Frederick Graham. Robert McIntire, John Winter and Dalton Drake portrayed the scene of "Washington as General". An original paper describing the inauguration of Washington was read by Harold Phillips and Robert Briley gave a humorous reading. Willard Bennington presented scene of "Washington as Farmer".

Jean Tilford gave a reading "The Minuet" and this was followed by a minuet dance by pupils of the sixth grade. A song by the fifth and sixth grades concluded the program. Each of the numbers was presented in costume which added to the effectiveness of the setting.

PARTY ARRANGED IN HONOR OF BIRTHDAY

Miss Helen Currie, W. Church St., was guest of honor at a delightful party in honor of her birthday arranged by a group of her friends at the home of Miss Virginia Guyton, W. Church St., Tuesday evening. Following a covered dish supper the group formed a theater party at the Bijou Theater. Miss Currie was presented a gift by her friends.

Those in the group were the Misses Helen Currie, Helen Spahr, Helen Street, Dorothy Devoe, Margaret Neeld, Doris McCormick, Dora Hayward, Sara Davidson, Lucy Stout, Virginia Guyton, Mrs. Henry Eavey and Mrs. Marcus McCallister.

Special communication of Xenia Lodge, No. 49, F. and A. M., will be held at the Masonic Temple, Friday at 7:30 p. m. There will be work in the Master Mason's degree and inspection following a banquet at 6:30 o'clock.

Women of the Presbyterian Church, Clifton, enjoyed an all day sewing party at the home of Mrs. Harry Corry, Clifton, Tuesday. A covered dish luncheon was served at noon.

Dr. R. M. Hughey, Washington C. H. physician, gave an interesting review of the life of Abraham Lincoln when he appeared as guest speaker before the Xenia Rotary Club at the Elks' Club Tuesday noon. Dr. Hughey's talk was the only feature of the program following the luncheon.

Mr. and Mrs. J. J. Negus moved this week from 648 S. Detroit St., to 123 W. Market St.

Doris Jean Gifford, small daughter of Mr. and Mrs. B. C. Gifford, 748 W. Second St., is recovering from an attack of the grip.

Mr. and Mrs. Joseph Woods, near Port William, entertained as their dinner guests Sunday: Mr. and Mrs. Walter McMahon and son, Kenneth, Dayton and Mr. and Mrs. Wilbur Woods and family, near Xenia.

Mr. and Mrs. Leroy Chambliss, Lake St., are the parents of a son born Tuesday morning.

Mr. John Bradfield, 205 Dayton Ave., who underwent an operation for the removal of a cataract from his eye at Lakewood Hospital, Cleveland, two weeks ago, was removed to the home of his son and daughter-in-law, Mr. and Mrs. Maurice Bradfield, 3439 Doris Road, Cleveland Friday. He is recovering nicely.

Mr. and Mrs. F. F. Filson and family have moved from 844 N. King St. to 822 N. Detroit St.

The Rev. and Mrs. W. H. Tilford, N. Detroit St., spent Tuesday in Cincinnati where the Rev. Mr. Tilford conducted services at the funeral of a relative.

Trinity M. E. Church choir will meet for rehearsal Thursday evening at 7 o'clock. Members are asked to notice the change of the evening.

Mrs. William T. Ungard, N. King St., who underwent a serious operation at McClellan Hospital Tuesday, was reported to be resting comfortably Wednesday morning.

All members of Pride of Xenia Council, No. 140, Daughters of America, are asked to be present at the meeting Thursday evening for team practice.

Mr. Charles W. Adair, N. Galloway St., prominent Xenian, who underwent an emergency operation for appendicitis at McClellan Hospital Tuesday morning, was reported to be resting comfortably Wednesday.

The J. F. F. Club will meet at the home of Mr. and Mrs. Fred Penewitt, Indian Riffe Road, Friday evening. Each family is asked to bring a pie.

Mrs. Guy Matson and daughter, Martha Jane, Yellow Springs, and Mrs. Rella Bolan, near Byron, were dinner guests Saturday of Mr. and Mrs. John C. Sidenstick, near Yellow Springs.

The Xenia Sunshine Society will deliver Valentine Day baskets to the needy of the city Saturday. It is announced. The Loyal Workers' Bible Class of the First M. E. Church will assist in the work. The local Sunshine branch is made up of members of various churches of the city but any one wishing to help the group spread sunshine in the homes of the needy is asked to leave donations at the home of Mrs. D. R. Lewis, 209 E. Second St., Friday.

Nelson Scott, son of Mr. and Mrs. Robert Scott, Old Town, was painfully injured when struck by an automobile January 25, continues to improve nicely although he is still confined in McClellan Hospital where he was removed following the accident. The youth received fractures of both thighs, a fracture of the right arm and cuts and bruises.

Mrs. Rella Bolan, near Byron, is visiting Mr. and Mrs. Joseph Paxson, near Yellow Springs.

Mr. and Mrs. Lewis Montgomery, 335 W. Third St., are announcing the birth of a son at their home Wednesday morning.

Mr. James Canaday, Hill St., has accepted a position in the offices of the Wilson Engineering and Contracting Co. He entered upon his new duties this week.

Mrs. Catherine Gibney, Nicholas St., who is critically ill suffering from a complication of diseases, remains in about the same condition. She is said to be gradually growing weaker each day.

Mrs. Wilbur Shultz, E. Second St., who underwent an operation at Miami Valley Hospital, Dayton, three weeks ago, was removed to her home here Tuesday. After leaving the hospital she remained at the home of her sister, Mrs. Floyd Allen, Dayton, before returning home. She is improving nicely.

The Ladies Aid Society of the White Chapel M. E. Church will hold an all day quilting party at the home of Mrs. H. D. Whittington, Stone Road, Friday. A covered dish luncheon will be served at noon.

Mr. Homer Hammontree, member of the Tabernacle evangelistic party, will conduct the prayer service at the home of Mrs. Paul D. Espey, N. Detroit St., Thursday morning at 10 o'clock. It is announced.

City Commissioner H. L. Binder, W. Main St., entered St. Elizabeth Hospital, Dayton, Wednesday for treatment. Mr. Binder underwent an eye operation at the hospital several weeks ago.

Mrs. Fred Bryant, near Clifton, underwent a serious operation at McClellan Hospital Tuesday.

Mrs. Jacob Kany, S. Detroit St., who has been ill several months, remains in about the same condition. She is confined to her bed.

Mr. Elwood Smith, Spring St., who underwent an operation at McClellan Hospital several days ago, is improving satisfactorily. It was Mr. Smith who underwent the operation instead of Mrs. Smith as reported Tuesday.

XENIA AND GREENE COUNTY OBITUARY, FUNERAL NOTICES

DAVID F. BELT

David Franklin Belt, 68, well-known Greene County farmer, died at his home on the Alpha Road, five miles southwest of Xenia, Tuesday evening at 5:45 o'clock. He had been ill six months following a stroke of paralysis and although he had been able to sit up during that time he was not able to be out. His condition had been serious three months.

Mr. Belt was born near Bellbrook March 27, 1863 and had spent the greater part of his life in that vicinity. He had lived on the farm where he died thirty-three years.

His marriage to Miss Florence M. Diltz took place March 17, 1891 and she survives with the following brothers and sisters: William, West Chester, Pa.; George, near Spring Valley; Harry, Dayton; Ralph, near Osborn; Charles, of Kentucky; Thomas, Beavertown; Miss Ann D. Belt, Los Angeles, Calif.; Mrs. Herman Evans, Columbus; and Miss Amanda E. Belt, Xenia.

Mr. Belt was a member of the First Reformed Church. Private funeral services will be held at the home Friday afternoon at 2 o'clock and burial will be made in Woodland Cemetery. Friends may call at the home any time Thursday afternoon or evening.

MRS. SARAH ANKENY

Funeral services for Mrs. Sarah E. Ankeny, 77, widow of Washington Ankeny, who died at her home on the Dayton-Xenia Pike Monday afternoon, will be held Thursday afternoon at 2 o'clock at the Byron Reformed Church. Burial will be made in Byron Cemetery.

Mrs. Ankeny is survived by the following children: William Chester, Grover Cleveland and Allen Ankeny, Mrs. Charles Sidenstick and Mrs. Louis Sidenstick.

DO GENTLEMEN PREFER BLONDES? ANSWER IS NO

Lupe Velez

Jean Harlow

Joan Crawford

Clara Bow

Nancy Carroll

Joan Bennett

Dolores del Rio

"Gentlemen do not prefer blondes," says Prof. William Moulton Marston, visiting professor of social psychology, at Long Island university, Brooklyn, N. Y. The professor questioned some 400 students as to their preferences with the result that "the men in

all classifications voted for brunettes as their first choice. They prefer blue-eyed women, however. Red hair seemed to be generally unpopular among both men and women students." According to his questionnaire, the platinum blonde locks of Jean Harlow are

"out"; also the natural gold of Joan Bennett's hair and the Titian curls of Clara Bow and Nancy Carroll. While blue-eyed, brown-tressed Joan Crawford and the ebony hair and eyes of Dolores del Rio and little Lupe Velez are winners.

Bridge Players Finish Qualifying Round Here

The qualifying round of local participation in the Ohio Bridge Tournament was completed with the second night's play at the Iron Lantern Tuesday evening, but entrants in the contract division were in the dark Wednesday as to whether they will play in the semi-final round here or at Dayton Thursday and Friday nights this week.

A representative from state tournament headquarters at Columbus was expected here Wednesday to confer with local tournament officials regarding a continuation of local competition in both the contract and auction divisions. The number of contestants in the contract bridge play was increased to twenty Tuesday night with the entry of four more teams of partners. Five tables of contract were in play during the evening.

The latest teams to enroll in the competition are: Mrs. George Tiffany and Mrs. Ralph Hall, Dr. and Mrs. E. J. Reynolds, Mrs. H. C. Messenger and Miss Bess Fulton, Mrs. Henry Farrell and I. M. Hyman. The four new teams were required to play forty-eight hands, double the number played by the original six teams, in order to catch up with the other entrants. The tournament rules stipulate that a total of forty-eight hands must be played on the two nights of the preliminary round.

Since the Xenia tourney is classed as a "short division," permission has been received from state headquarters to continue the competition in this city in semi-finals rather than require the qualifying round winners to join the winning contingent at Dayton.

One of the questions to be decided is whether all of the ten contract teams may continue to compete in the city semi-finals here, or whether half must be eliminated on the basis of total net scores and the top 50 per cent with the highest point totals enter the next round. Inasmuch as the rules specify that progressive contract instead of duplicate contract will continue to prevail for the semi-finals, and "set" hands will not be played until the city finals are reached it was also uncertain Wednesday whether some of the teams will want to remain in the competition, depending more or less on the luck of the cards.

The two local auction bridge teams also continued their play here Tuesday night, after it was learned that the play at Spring-

Sore Throat? Don't Gargle

You get quicker, better relief with Thoxine, a prescription exclusively for throat ailments. The very first swallow relieves the throat soreness. Its internal action removes the cause which otherwise might develop into serious illness. Most coughs are caused by an irritated throat. Thoxine stops these at once. Safe for the whole family—guaranteed no dope. Money back if not satisfied, 35c. at Sohn's Drug Store and all other good drug stores. —Adv.

SURRENDERS ON CHECK CHARGE

Armed with a warrant for his own arrest, Forest K. Waddle, 52, of R. R. No. 2, Cedarville, walked into police headquarters at Springfield Tuesday and surrendered himself for prosecution on a charge of issuing a check for \$325 February 3, with insufficient funds on deposit in the bank.

Handing the warrant over to the sergeant in charge of the information desk at headquarters, Waddle furnished appearance bond shortly afterward and was released, pending arraignment in court.

The warrant for Waddle's arrest sworn out by John W. Henry, Springfield, was given him Tuesday by Sheriff John Baughn. Literally "taking himself into custody," Waddle took the warrant with him to Springfield.

STOLE COAL - FINED

Pleading guilty to petty larceny in connection with the theft of coal from the Pennsylvania Railroad, Garland Hull, 19, colored, 1127 E. Second St., arrested by Fred O. Lieurance, chief of the railroad police, was fined \$10 and costs and sentenced to ten days in jail by Municipal Judge E. Dawson Smith Wednesday.

P. T. A. ENJOYS

WASHINGTON PROGRAM.

A program portraying scenes from the life of George Washington, was presented by pupils of McKinley School as a feature of the P. T. A. meeting in the school auditorium Monday afternoon. The program opened with a selection by a toy orchestra, composed of pupils of Miss Marjorie Douthett's third grade with David Adair as leader.

Songs were sung by pupils of Miss Mary Rector's third grade and Miss Oils Hart's third grade. In a pageant portraying scenes from the life of the "Father of Our Country" Willard Bennington was announcer. The scene of Washington's birth was enacted by Jack Weber, Jack Osborne, Russell Mett and Ernest Pope. Billy Meahl and Jerry Martin enacted the scene of the hatchet and the cherry tree and Warren James read a poem while this scene took place.

Following a song by pupils of Miss Louise Waddle's first grade the scene "Washington the Surveyor" was presented by Trenton Williams, Richard Simson and Frederick Graham. Robert McIntire, John Winter and Dalton Drake portrayed the scene of "Washington as General". An original paper describing the inauguration of Washington was read by Harold Phillips and Robert Briley gave a humorous reading. Willard Bennington presented scene of "Washington as Farmer".

Jean Tilford gave a reading "The Minute" and this was followed by a minute dance by pupils of the sixth grade. A song by the fifth and sixth grades concluded the program. Each of the numbers was presented in costume which added to the effectiveness of the setting.

PARTY ARRANGED IN HONOR OF BIRTHDAY

Miss Helen Currie, W. Church St., was guest of honor at a delightful party in honor of her birthday arranged by a group of her friends at the home of Miss Virginia Guyton, W. Church St., Tuesday evening. Following a covered dish supper the group formed a theater party at the Bijou Theater. Miss Currie was presented a gift by her friends.

Those in the group were the Misses Helen Currie, Helen Spahr, Helen Street, Dorothy Devoe, Margaret Need, Doris McCormick, Dora Hayward, Sara Davidson, Lucy Stout, Virginia Guyton, Mrs. Henry Eavey and Mrs. Marcus McCallister.

Special communication of Xenia Lodge, No. 49, F. and A. M., will be held at the Masonic Temple, Friday at 7:30 p. m. There will be work in the Master Mason's degree and inspection following a banquet at 6:30 o'clock.

Women of the Presbyterian Church, Clifton, enjoyed an all day sewing party at the home of Mrs. Harry Curry, Clifton, Tuesday. A covered dish luncheon was served at noon.

Dr. R. M. Hughey, Washington, C. H. physician, gave an interesting review of the life of Abraham Lincoln when he appeared as guest speaker before the Xenia Rotary Club at the Elks' Club Tuesday noon. Dr. Hughey's talk was the only feature of the program following the luncheon.

Mr. and Mrs. J. J. Negus moved this week from 648 S. Detroit St. to 123 W. Market St.

Doris Jean Gifford, small daughter of Mr. and Mrs. B. C. Gifford, 748 W. Second St., is recovering from an attack of the grip.

Mr. and Mrs. Joseph Woods, near Port William, entertained as their dinner guests Sunday, Mr. and Mrs. Walter McMahon and son, Kenneth, Dayton and Mr. and Mrs. Wilbur Woods and family, near Xenia.

Mr. and Mrs. Leroy Chambliss, Lake St., are the parents of a son born Tuesday morning.

Mr. John Bradfield, 205 Dayton Ave., who underwent an operation for the removal of a cataract from his eye at Lakewood Hospital, Cleveland, two weeks ago, was removed to the home of his son and daughter-in-law, Mr. and Mrs. Maurice Bradfield, 3439 Doris Road, Cleveland Friday. He is recovering nicely.

Mr. and Mrs. F. F. Filson and family have moved from 344 N. King St. to 822 N. Detroit St.

The Rev. and Mrs. W. H. Tilford, N. Detroit St., spent Tuesday in Cincinnati where the Rev. Mr. Tilford conducted services at the funeral of a relative.

Trinity M. E. Church choir will meet for rehearsal Thursday evening at 7 o'clock. Members are asked to notice the change of the evening.

Mrs. William T. Ungard, N. King St., who underwent a serious operation at McClellan Hospital Tuesday, was reported to be resting comfortably Wednesday morning.

All members of Pride of Xenia Council, No. 140, Daughters of America, are asked to be present at the meeting Thursday evening for team practice.

Mr. Charles W. Adair, N. Galloway St., prominent Xenian, who underwent an emergency operation for appendicitis at McClellan Hospital Tuesday morning, was reported to be resting comfortably Wednesday.

The J. F. F. Club will meet at the home of Mr. and Mrs. Fred Penewitt, Indian Riffle Road, Friday evening. Each family is asked to bring a pie.

Mrs. Guy Matson and daughter, Martha Jane, Yellow Springs, and Mrs. Rella Bolan, near Byron, were dinner guests Saturday of Mr. and Mrs. John C. Sidenstick, near Yellow Springs.

The Xenia Sunshine Society will deliver Valentine Day baskets to the needy of the city Saturday, it is announced. The Loyal Workers' Bible Class of the First M. E. Church will assist in the work. The local Sunshine branch is made up of members of various churches of the city but any one wishing to help the group spread sunshine in the homes of the needy is asked to leave donations at the home of Mrs. D. R. Lewis, 209 E. Second St., Friday.

Nelson Scott, son of Mr. and Mrs. Robert Scott, Old Town, who was painfully injured when struck by an automobile January 25, continues to improve nicely although he is still confined in McClellan Hospital where he was removed following the accident. The youth received fractures of both thighs, a fracture of the right arm and cuts and bruises.

Mrs. Rella Bolan, near Byron, is visiting Mr. and Mrs. Joseph Paxson, near Yellow Springs.

Mr. and Mrs. Lewis Montgomery, 335 W. Third St., are announcing the birth of a son at their home Wednesday morning.

Mr. James Canaday, Hill St., has accepted a position in the offices of the Wilson Engineering and Contracting Co. He entered upon his new duties this week.

Mrs. Catherine Gibney, Nicholas St., who is critically ill suffering from a complication of diseases, remains in about the same condition. She is said to be gradually growing weaker each day.

Mrs. Wilbur Shultz, E. Second St., who underwent an operation at Miami Valley Hospital, Dayton, three weeks ago, was removed to her home here Tuesday. After leaving the hospital she remained at the home of her sister, Mrs. Floyd Allen, Dayton, before returning home. She is improving nicely.

The Ladies Aid Society of the White Chapel M. E. Church will hold an all day quilting party at the home of Mrs. H. D. Whittington, Stone Road, Friday. A covered dish luncheon will be served at noon.

Mr. Homer Hammontree, member of the Tabernacle evangelistic party, will conduct the prayer service at the home of Mrs. Paul D. Espey, N. Detroit St., Thursday morning at 10 o'clock. It is announced.

City Commissioner H. L. Binder, W. Main St., entered St. Elizabeth Hospital, Dayton, Wednesday for treatment. Mr. Binder underwent an eye operation at the hospital several weeks ago.

Mrs. Fred Bryant, near Clifton, underwent a serious operation at McClellan Hospital Tuesday.

Mrs. Jacob Kany, S. Detroit St., who has been ill several months, remains in about the same condition. She is confined to her bed.

Mr. Elwood Smith, Spring St., who underwent an operation at McClellan Hospital several days ago, is improving satisfactorily. It was Mr. Smith who underwent the operation instead of Mrs. Smith as reported Tuesday.

XENIA AND GREENE COUNTY OBITUARY, FUNERAL NOTICES

DAVID F. BELT

David Franklin Belt, 68, well-known Greene County farmer, died at his home on the Alpha Road, five miles southwest of Xenia, Tuesday evening at 5:45 o'clock. He had been ill six months following a stroke of paralysis and although he had been able to sit up during that time he was not able to get out of bed. His condition had been serious three months.

Mr. Belt was born near Bellbrook March 27, 1863 and had spent the greater part of his life in that vicinity. He had lived on the farm where he died thirty-three years.

His marriage to Miss Florence M. Diltz took place March 17, 1891 and she survives with the following brothers and sisters: William, West Chester, Pa.; George, near Spring Valley; Harry, Dayton; Ralph, near Osborn; Charles, of Kentucky; Thomas, Beavertown; Miss Ann D. Belt, Los Angeles, Calif.; Mrs. Herman Evans, Columbus and Miss Amanda E. Belt, Xenia.

Mr. Belt was a member of the First Reformed Church. Private funeral services will be held at the home Friday afternoon at 2 o'clock and burial will be made in Woodland Cemetery. Friends may call at the home any time Thursday afternoon or evening.

MRS. SARAH ANKENY

Funeral services for Mrs. Sarah E. Ankeny, 77, widow of Washington Ankeny, who died at her home on the Dayton-Xenia Pike Monday afternoon, will be held Thursday afternoon at 2 o'clock at the Byron Reformed Church. Burial will be made in Byron Cemetery.

Mrs. Ankeny is survived by the following children: William Chester, Grover Cleveland and Allen Ankeny, Mrs. Charles Sidenstick and Mrs. Louis Sidenstick.

DO GENTLEMEN PREFER BLONDES? ANSWER IS NO

Lupe Velez

Jean Harlow

Joan Crawford

Clara Bow

Nancy Carroll

Joan Bennett

"Gentlemen do not prefer blondes," says Prof. William Moulton Marston, visiting professor of social psychology, at Long Island university, Brooklyn, N. Y. The professor questioned some 400 students as to their preferences with the result that "the men in

all classifications voted for brunettes as their first choice. They prefer blue-eyed women, however. Red hair seemed to be generally unpopular among both men and women students." According to his questionnaire, the platinum blonde locks of Jean Harlow are

"out"; also the natural gold of Joan Bennett's hair and the Titian curls of Clara Bow and Nancy Carroll. While blue-eyed, brown-tressed Joan Crawford and the ebony hair and eyes of Dolores del Rio and little Lupe Velez are winners.

Bridge Players Finish Qualifying Round Here

The qualifying round of local participation in the Ohio Bridge Tournament was completed with the second night's play at the Iron Lantern Tuesday evening, but entrants in the contract division were in the dark Wednesday as to whether they will play in the semi-final round here or at Dayton Thursday and Friday nights this week.

A representative from state tournament headquarters at Columbus was expected here Wednesday to confer with local tournament officials regarding a continuation of local competition in both the contract and auction divisions.

The number of contestants in the contract bridge play was increased to twenty Tuesday night with the entry of four more teams of partners. Five tables of contract were in play during the evening.

The latest teams to enroll in the competition are: Mrs. George Tiffany and Mrs. Ralph Hall, Dr. and Mrs. E. J. Reynolds, Mrs. H. C. Messenger and Miss Bess Fulton, Mrs. Henry Farrell and I. M. Hyman. The four new teams were required to play forty-eight hands, double the number played by the original six teams, in order to catch up with the other entrants. The tournament rules stipulate that a total of forty-eight hands must be played on the two nights of the preliminary round.

Since the Xenia tourney is classed as a "short division," permission has been received from state headquarters to continue the competition in this city in semi-finals rather than require the qualifying round winners to join the winning contingent at Dayton.

One of the questions to be decided is whether all of the ten contract teams may continue to compete in the city semi-finals here, or whether half must be eliminated on the basis of total net scores and the top 50 per cent with the highest point totals enter the next round.

Inasmuch as the rules specify that progressive contract instead of duplicate contract will continue to prevail for the semi-finals, and "set" hands will not be played until the city finals are reached it was also uncertain Wednesday whether some of the teams will want to remain in the competition, depending more or less on the luck of the cards.

The two local auction bridge teams also continued their play here Tuesday night, after it was learned that the play at Springfield does not include an auction division. The exact status of the local auction players with reference to further tourney competition also remains to be determined.

FAYETTE COUNTY ENDORSES TEMPLIN

The Fayette County Republican Executive Committee has endorsed the candidacy of N. Floyd Templin, Clarksville, O., for state senator from the Fifth-Sixth Senatorial District. Templin, a Clarksville business man, is serving his second term in the state legislature as Clinton County's representative. He now possesses endorsements of the Republican organizations in Greene, Clinton, Ross and Fayette Counties, and is expected to be unopposed for the Republican nomination at the May primary.

DEMOCRATS WILL SELECT DELEGATES

Two delegates and two alternates to the Democratic National Convention, and one Presidential elector are scheduled to be selected during a meeting of eighty-nine delegates from the nine counties in the Seventh Congressional District at the Hotel Shawnee in Springfield, Wednesday afternoon. Selection of ten delegates and ten alternates to represent Greene County's Democratic organization at the convention was made recently.

SURRENDERS ON CHECK CHARGE

Armed with a warrant for his own arrest, Forest K. Waddle, 52, of R. R. No. 2, Cedarville, walked into police headquarters at Springfield Tuesday and surrendered himself for prosecution on a charge of issuing a check for \$335. February 3, with insufficient funds on deposit in the bank.

Handing the warrant over to the sergeant in charge of the information desk at headquarters, Waddle furnished appearance bond shortly afterward and was released, pending arraignment in court.

The warrant for Waddle's arrest, sworn out by John W. Henry, Springfield, was given him Tuesday by Sheriff John Baughn. Literally "taking himself into custody," Waddle took the warrant with him to Springfield.

BIBLE THOUGHT FOR TODAY

He causeth the vapours to ascend from the ends of the earth; he maketh lightnings for the rain; he bringeth the wind out of his treasures.—Psalm cxxxv, 7.

MARK OF GENIUS

Fifteen years ago the dancer Nijinsky was a sensation of the moment. As star of the Diaghileff Ballet Russe he literally bounded into fame. His perfect physique commanded admiration and his dancing ability indicated the superior co-ordination of his muscles.

But the brain that controlled this physical magnificence lacked stability and the perfect equilibrium of his body. It had no adequate defense, save growing disorder, against the horrors of war-time experiences. Ten years ago Vaslov Nijinsky disappeared from the public view, going to the retreat of a Swiss sanatorium.

Psychiatrists and other students of mental hygiene will be interested in the exhibition of paintings by Nijinsky, which has just been opened in New York under the direction of his wife and a committee of patrons. Distinguished artists recognized as modern masters have given their word that there is the mark of genius in these paintings, as there was in the terpsichorean art of Nijinsky. Hence it seems evident that mental therapy has in this case salvaged one talent from the wreckage of another.

Fortunately for the health of the world we have come a long way from the days when the mentally sick were considered to be possessed of devils. Even more hopefully, the trend in mental hygiene is toward prevention, of which an ounce, in this field as in any other, continues to be worth a pound of cure.

STOPPING ABUSES

The determination of Congressman Edwin L. Davis, chairman of the House committee on Merchant Marine, Radio and Fisheries, to carry on the fight in his Chamber against the abuse of radio, while the Senate is resting on its oars, after adopting Sen. Couzens' resolution for an investigation of the matter, will be applauded by millions of radio fans in this country.

The ballyhoo advertising that steals so much of the air is not the only cause of well grounded complaint by owners of receiving sets. Slanders and incendiary speeches and statements are being permitted to be broadcast from a certain class of stations, with increasing irresponsibility. A newspaper that put the same language in black and white and circulated it would be promptly haled into court. The air retains no record of what is written upon it; but the broadcast word enters thousands and perhaps millions of human ears and works its purpose on the public mind.

An excellent example of this irresponsible broadcasting is found in the "war news" that some stations have been putting on the air. The other night one of them sent out word that the United States had declared war on Japan! There has not been, as far as the situation in Shanghai is concerned, any intention of the United States' declaring war on either Japan or China or any reason or excuse for its doing so. Attempting to fire public feeling in this country against either of the parties to the Sino-Japanese conflict is against public interest and therefore might legitimately be curbed.

The radio is a comparatively new means of disseminating news and views. That it must be brought, if it is to survive, under regulations similar to those that govern the public press becomes more and more obvious, as the abuses growing up about it multiply. The Federal Radio Commission so far has failed to keep the commercialization of radio within reasonable bounds; and stations in the broadcasting business solely for the money they can get out of it have shown that they are willing to kill the goose if in the meantime they can collect a basketful of golden eggs. If Congress can restore the radio to the owners of receiving sets and preserve it as an instrument of incalculable educational and recreational value it will perform a service for which generations still unborn will have reason to be grateful to it.

Gazetteers

The Mahatma and all the members of his family are now in places where they live at the public expense.

When the radio is really good it is so good that the long periods when it is otherwise are all the more irritating.

It is rather evident that the World Disarmament Conference is going to need all the prayers the gods can put up in its behalf.

In one way the ground hog is distinctly superior to some other kinds of hogs. He butts into the picture only once a year, and then goes back to his hole.

Vision To Bring Peace

By HELEN KELLER

(Helen Adams Keller was born in Tuscumbia, Ala., June 27, 1880. She is a graduate of Radcliffe college and has received several honorary degrees. She has been deaf and blind since the age of nineteen months as result of an illness. Her great gift to overcome her handicaps became a story known to most of the world. Miss Keller formerly was a member of the Massachusetts Commission for Blind and now is connected with various societies for the blind and deaf. Miss Keller now is raising an endowment of \$250,000 for the American Foundation for the Blind. Her publications are: "The Story of My Life," "Optimism, an Essay," "The World I Live In," "The Song of the Stone Wall," "Out of the Dark," "My Religion," and "Midstream—My Later Life.")

Peace will not come through the League of Nations, where the statesmen agree to scrap everything they won't need in the next

war. Nor will it come through the disarmament conference which is being held in Geneva; neither will it come through tariff walls and moratoriums. Why cannot the people see that the powers that be are trying to drive Russia into war with Japan because it would be easier for them to exploit China if there was an enemy nation between it and Russia?

When captains of industry cannot, or will not, make a proper division of earnings between labor and capital, economic unrest prevails, and a state of affairs arises like what we are now witnessing here and all over the world.

Peace will come only through the enlightenment of the people on the political and economic causes of war, and the acquisitive motives that shape the policies of their rulers. Peace and prosperity will come only when we realize that we live for each other and by each other and not unto ourselves. We need to renew our whole spiritual vision.

MY NEW YORK

By JAMES ASWELL

NEW YORK. — Manhattan Evening: The old coddling for a place to dine. . . There are so many on paper and yet when you come to think . . . "But we were there night before last!" and "I don't feel in the mood for that kind of food." . . The list narrows, then, until Joe's Palace and Mrs. Coty's Tea Room back home symbolize immense variety.

So we pick the Cafe des Beaux Arts, in W. 40th street, perhaps the lone "class" survival of the Delmonico-Sherry-Bustanobi era. . . Down one flight into a little room with gilt cherubim smiling blandly from the eaves. . . The place drips, a little sadly, with the past. . . Emil Gerassini, the owner since 1903, better known simply as Emil, comes to sit at my table. . .

Not many diners now, in this room awake with the ghosts of Harry K. Thaw, Diamond Jim Brady, and the whole spangled naive cavalcade of the early Nineteen Hundreds. . . A girl in a cocktail jacket shimmering with silver scales sits opposite us. . . Emil glances her way solemnly through his glasses. . . "Stykes," he murmurs, "I remember when Evelyn Nesbit Thaw wore an outfit just like that, 15 years ago."

We eat. The meal is leisurely, under the eyes of the golden cherubim, and exquisitely prepared. . . Emil sits quietly, reluctant to summon those gilded Manhattan phantoms he knows so well. . . This is in pleasant contrast to the publicity hungry restaurants of modern Broadway. . . He knows vaguely that I write a widely-syndicated column, but I know he has never read it, and I am sure it never occurs to him that his place is "copy" any more.

OLD TIMES

Emil recalls the time Joe Fejer, a gypsy violinist, still entertaining in the night places, was presented from our very table with a crisp \$10.00 bill — a tip — by a man who has become one of America's most conservative financiers. . . But there was a giddy time, not so far distant, when grand tips were more common than you'd think. . . Then there was that other patron of the Cafe des Beaux Arts' heyday who handed a \$20 bill to the orchestra leader every hour on the dot to penalize himself for missing successive Long Island trains. . . One evening he came in at 6 and missed eight trains. . .

So Emil reminisces quietly, giving material for a hundred columns if I could spare the space. . . After dinner we duck through a passage into one of the private rooms: fitted with a dozen games for diners, ping-pong, horse races, "racketeer," and others. . . And here I run upon the most succulent story in many a moon. . .

The walls of this room are lined with original pastels done by Hassell Coffin, the famous cover artist. . . Close inspection reveals a crease across the middle of every one, where it has been torn and pasted together. . . I question Emil and he comes out with the story. . .

Coffin, who used to have his studio in the Beaux Arts, flared up temperamental over private troubles, tore up all his heads of pretty girls and threw them in the ash can. . . An amazed janitor took them down to Emil and, there they are. . . Mute testimony to a dramatic juncture in the life of an artist. . . The diners rarely notice the tears which stand for tears. . .

HOP, SKIP AND JUMP

They tell me about the shipment of several hundred jackrabbits on their way from Germany to a Westchester hunting preserve. I gather they will be a little late for the hunting season, but surely they won't mind that. The bunnies, according to those who ought to know, soon go into huddles with brethren who have preceded them on the spot, and learn a number of tricks with which to confound the long, lean hounds of the swanky gunners who emerge to the chase from long, lean limousines. One favorite ruse of the jacks is to lead the dogs over slippery rocks and damp earth, where the canines have to go goggling.

The red-white-and-blue motif in current fashions has led to the use of the American flag as an insignia on sheets, pillow-cases, handkerchiefs and even lingerie. One manufacturer was recently persuaded by the patriotic organizations, who are burned up over the matter, to abandon its projected "flag towel."

Miniature pancakes sheeting caviar and sour cream are still the star appetizer in uppity homes. Funny the restaurants haven't caught on.

The New York Children's Aid society recently sought to determine by a questionnaire the reading tastes of the town's tenement youngsters. The name Schopenhauer barked the great majority, but no insouciant youngster claimed to have read three of the gentleman's works. He listed them: "Madam Fifi," "Jiggs and Maggie" and "Abe the Agent."

SLIGHT CHANGE I was galvanized into wild hope the other morning by a telephone call from the eastern office of one of the big movie concerns. They wanted to talk to me about one of my stories, with a view to its picture adaptation.

When I had rushed over, the executive in his mahogany-paneled office declared that what he had in mind was a novelette of mine published in College Humor several years ago.

"But we don't think much of the story as a movie," he said. "Well," I managed, rather nonplussed, "why?" "Oh we like the title, all right. The title is a hum-dinger. We thought maybe you could write a story to fit the title. Then everything would be fine."

A QUAIN OLD JAPANESE CUSTOM—

EXPANSION CONSIDERED LIFE AND DEATH ISSUE WITH HEMMED-IN JAPAN

CHARLES P. STEWART

WASHINGTON.—"With a rapidly-growing population, already half as large as this country's, trying to exist on the narrow coastal fringe of an otherwise scantily-productive, mountainous island chain, totaling less than the area of California, more room is a matter of life and death to Japan," observes Representative Ernest W. Gibson of Vermont.

Col. Gibson toured the Orient extensively last summer, studied its problems thoroughly and discusses them today in the light of perhaps the completest fund of up-to-date information of any member of Congress.

Recognition of the vital necessity of an expansion program to the Japanese does not blind the New Englander to the danger involved in it from the standpoint of occidental civilization.

"Tokio's statesmanship," he says, "aims unmistakably at domination of the Pacific, in my opinion including the ultimate acquisition of the Philippines and Australia."

"Australia of course is thinly settled—a field for the absorption of Japan's overflow into the indefinite future."

"The Philippines are not overcrowded, as populations are reckoned in the Orient. The Japanese also need the archipelago strategically, for fulfillment of their policy. It is worth remembering that half the inhabitants of the world live within a 2,400-mile radius of Manila."

"In the meantime," continued the Green Mountain representative, "Nippon must intensify industrially to support its cramped 60,000,000. 'Control of Manchuria is essential to this industrialism, for the

sake of a dependable supply of raw materials. A market for the output of their factories is equally essential and the thronging Yangtze valley affords an ideal one, if they can make it their monopoly. Shanghai is the key to it."

"Thus far Japan's method has been to advance step by step toward its objective, each step being represented by about one brisk fight and a great deal of ensuing diplomacy."

"Nearly 40 years ago," recalled the congressman, "the islanders had a small war with China, marked by the naval battle of the Yalu river. They won it easily and, through the international conversations which followed, gained their initial mainland foothold, in Korea. 'A decade later they had several important engagements during their war with Russia, but it was mainly by virtue of the treaty of Portsmouth that they extended their sphere of influence in northern China."

"During the world conflict their only battle was with the German garrison of Kiaochow, which, after taking, they lost, it is true, at the Washington conference, but it was mainly by virtue of the treaty of Portsmouth that they extended their sphere of influence in northern China."

"Judging from the past," said the Vermont, "it would be logical to assume that their seizure of Shanghai was intended by the Japanese to be the climax of their present military activities, on the theory that what they get by force they generally manage to keep by negotiation."

"There appears, however, to be a possibility that, in this instance, they will prove to have overdone themselves to an extent which will

make it difficult for them to stop just where they probably planned to stop."

"The chance also is to be reckoned with that Tokio statesmanship deliberately has steered the country into what it knows to be a formidable foreign venture, with a view to offsetting a state of domestic discontent which is assuming alarming proportions."

"Predictions from excellent sources were made to me, during my last summer's stay in the east, of a Japanese revolution within ten years at most, in favor of a more liberal regime."

"The launching of a foreign war would be a natural means, in such a situation, of consolidating public opinion behind the existing order."

Budgets For The Entire Family

By MRS. MARY MORTON

GUIDE CARDS

By MRS. MARY MORTON

In using the box type of record for your family expenditures, it is convenient to use colored cards or cards with colored tabs for the main heads and regard them only as guide cards, all the entries being made on the white cards filed behind these guides. If the cards are kept in a suitable box there should be little difficulty in handling them, but unless a very detailed system is required, or unless a flexible record which can be kept according to different subheads at various times is necessary to meet the needs of the family, some form of book is undoubtedly more convenient for most persons.

For small families, especially if living in a city apartment, or for individuals the expenditures for a month could be kept on two pages ruled off in boxes as in the figures last given.

These boxes may be arranged in different ways so that more room may be provided for certain items. For example if a family were boarding, less space could be given to food, since one to four entries in the month would care for that item, and more space would then be available for whatever item seemed to require it. Some headings, indeed, might not be needed at all. In fact, keeping the main thing is to find a system which will suit the particular needs of the record keeper.

The advantage of this card type of record is its compactness.

TASTY WAY TO COOK ONIONS

BAKED ONIONS IN TOMATO SAUCE

(Recipe From Home Economics Bureau of U. S. Department of Agriculture)

Ten medium-sized onions, three pounds of canned tomatoes, one bay leaf, one-half teaspoon celery seed, three cloves, three tablespoons flour, three tablespoons melted butter, margarine or other fat, three teaspoons salt, pepper. Skin the onions, cut in half, simmer in lightly salted water for 10 minutes, drain, and put in large baking dish. Cook the tomatoes with the bay leaf, celery seed and cloves for 10 minutes and strain. Blend the tomato juice with the salt and pepper, and mix well. Pour over the onions, cover and cook until the onions are tender, about one hour. Serve from the baking dish. Seasoning can, of course, be varied as desired. Serves 10.

How Lead Poisoning Is Acquired

By LOGAN CLENDENING, M. D.

Eating paint off the furniture, woodwork, toys or pencils, is not just a bad habit vaguely "not good for the child." It results in a quite definite disease—lead poisoning.

That this occurs frequently in infants and children has only recently been recognized.

In adults the manifestations of lead poisoning have been recognized for a long time. They are, of course, almost always associated with occupations which involve the handling of lead. Nobody ever thinks of exposure to lead in little children—and that is probably why so many cases go without diagnosis or even suspicion that anything definite is wrong.

Lead gets into the body in very insidious ways—through the skin, by being breathed in, etc. All animals are susceptible to it. Birds that feed on berries in the neighborhood of smelting furnaces have been found to be affected with lead poisoning.

In adults the symptoms are strange metallic pallor to the skin, a blue line on the gums, various nervous symptoms and colic. "Devonshire colic" was the name first given the disease; it was proved by old Sir George Baker that the colic was due to drinking the elder of Devonshire which had lead in it from the habit of stirring the cider in the vats with a lead weight.

In children these symptoms are not so marked. Since during the teething period children have the habit of chewing anything or ev-

erything, it is during that time—one and two years—that the condition is likely to be found. The children are restless and irritable and have a perverted appetite (or pica). Pallor is usually present. Constipation, a symptom of the condition in adults, is marked; colic may be suspected even if the child cannot explain it. Vomiting has been noted. In very severe cases, nervous symptoms are similar to those in adults come on. Even paralysis, which has been mistaken for infantile paralysis.

X-ray examination is a way to detect it, as is pointed out by a recent writer in the Journal of the American Medical Association. It is well known that in lead poisoning in adults the lead is deposited in the bones, replacing calcium there. It does this also in children, and can be easily detected by a heavy line on the X-ray plate at the ends of certain bones, especially the ribs, but also the bones of the forearm.

Editor's Note: Pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin, for each, and a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper or Central Press Association, 1435 East Twelfth street, Cleveland, O. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

Satisfied With Wife

By MRS. VIRGINIA LEE

"DEAR VIRGINIA LEE: I wonder if you would be interested in my story. Perhaps, after reading it you will merely say, 'No fool like an old fool,' and perhaps you will be right. All I can say is the story is true."

"I am between 50 and 60. I love my wife sincerely, find my greatest pleasure in her company; we have no disagreements other than the trifles that come up between any two people."

"About five years ago I met a woman about 18 years younger than I. Little by little, almost unconsciously, a feeling toward her has grown on me that is almost exactly like the feeling I had when courting my wife. This woman cannot be called beautiful, but her character and disposition are beautiful."

"I see her to speak to only at intervals, and then usually not more than a salutation. She is happily married and has a family. My wife and I and her family are very good friends. Very rarely do I see her to speak to alone. Never have I uttered a word to her other than those of ordinary friendship."

But in some way she has aroused a sentiment in me that I can describe in no other way than to say that I love her. If I see her come into a room it thrills me.

"I avoid her at times; look elsewhere rather than at her; berate myself mentally for an old fool and make up my mind to forget her. I can't do it."

"I know a great deal of her family affairs, her necessary economies, her children's sicknesses, accidents, etc., and it invariably arouses a deep feeling of sympathy and a wish that I could help her. I conceal my feelings, but it persists until I wish I had never seen her or could never see her again. I don't want her. I am perfectly happy and satisfied with my wife. Yet I am tormented with the feeling that I have lost the other woman. Question: Can one truly love two people at the same time?"

"I don't expect you to solve my problem. I'll cure myself eventually. But meantime it is almost a torment to have such an undesired feeling force itself on me. I feel ashamed and disgusted with myself and tell myself to forget it and

be sensible. I don't want any change. My feeling toward this woman is an absolutely pure affection. Can such a thing be possible?"

Do you remember, John Smith, how sure you were in your youth that such things could not be? Can't you see the scorn of young John Smith over such feelings in a man your age? "Old fool" would have been his designation. You know from your own experience that a person can truly love two persons at the same time. And you know, too, that the quality of your love is "pure affection."

We live and learn, don't we? We learn, for one thing, that no age is immune to the call of romance. Happily married, satisfied with your wife, you feel the force of this powerful attraction that makes men and women, old and young, do such apparently unaccountable things.

Yes, unless unexpected circumstances arise to prevent, you'll conquer this feeling which seems disloyal to your wife and entirely undesirable. But isn't it rather wonderful that you have within you the ability to feel thus toward someone? You can't be dead, emotionally and spiritually, while you feel so.

And you can never be the Philistine toward the many men and women who are swept off their feet by an overmastering passion that makes wrecks, maybe, of their lives. You who have too much balance to do likewise, can understand and sympathize.

Thank you for your very interesting letter.

THOMAS: Are you too precipitate, Thomas? Do you give the girls time to get to know you? Sensible girls won't like to be rushed into matrimony, you know. Why not take another chap-possibly one who is having a hard time getting along into your nice home for company, and take your time in courting a girl and, I now winning her?

UNHAPPY: Yes, I can give you advice, my dear. Thank God every day for your good husband and fine boys and be so happy together that no outside influence can touch you.

Perfumed Baths Cheap

By GLADYS GLAD

Perfumed baths, which Voltaire once called "the luxury of luxuries," have been indulged in by people of wealth the world over since the earliest times. Even the cream of the crop of Pharaoh's day and age bathed in perfumed water. But nowadays, it's not only the wealthy who can enjoy the delights of a perfumed bath. Kid Poverty herself can do so, if she's "in the know."

There are any number of ways of perfuming the bath. There are bath salts, bath tablets and toilet waters on the market that not only perfume the bath, but soften the water as well. And there are mixtures for perfuming and softening bath water that can be made at home most cheaply and successfully.

There's one recipe, especially, for perfuming the bath that is a great favorite in England, and is extremely simple for the woman of limited means to prepare. An equal amount of dried lavender flowers and rose petals (which may be procured in any drug store) should be placed in a receptacle and combined with an equal quantity of borax and orris root powder. Then the mixture should be placed in a small muslin bag. The bag should be sewed shut, and a ribbon or cord attached to it. When the tub is to be filled for the bath, then the bag should be suspended by the ribbon or cord from the hot water tap, so that the running water pours directly over it. And when the water runs into the tub the bath and the atmosphere of the whole room become permeated with the fragrance of the compound.

There's a simpler procedure than this for perfuming and softening bath water, however, and it's also effective. Make small cheesecloth bags and place in each of them a cup of ordinary bran and a tablespoon of mawk, sweet-bay, lavender, orange blossoms, rosemary, jasmine flowers, orris root or any like fragrant flower or herb.

Then when taking a bath, toss one of the bags into the tub of water. It will give the water, and hence your skin, a most delightful delicate fragrance.

ANSWERS TO QUERIES
Glycerine
Pat: I have never heard of a case in which glycerine has caused the growth of hair on the face. This is more or less of a groundless superstition.

Mouth Wash
Jack: An effective mouth wash can be made by dissolving one-fourth teaspoon borax, one-fourth teaspoon salt and one-fourth teaspoon peroxide in a glass of warm water.

Legs
Rita: It would be impossible for me to print my method of reducing knees, calves and ankles in this brief space. The method is fully described, however, in my article "Care of the Feet and Legs."

Colors
Auburn: I think that you will find shades of tan, brown, russet, pinkish beige, capucine, cool greens, mat white and black most becoming to you.

Agar-Agar
J. S.: Agar-agar benefits the complexion in that it assists in clearing the intestines of poisonous wastes. It may be purchased in any well-stocked drug store.

BIBLE THOUGHT FOR TODAY

He causeth the vapours to ascend from the ends of the earth; he maketh lightnings for the rain; he bringeth the wind out of his treasures.—Psalm cxxxv, 7.

MARK OF GENIUS

Fifteen years ago the dancer Nijinsky was a sensation of the moment. As star of the Diaghileff Ballet Russe he literally bounded into fame. His perfect physique commanded admiration and his dancing ability indicated the superior co-ordination of his muscles.

But the brain that controlled this physical magnificence lacked stability and the perfect equilibrium of his body. It had no adequate defense, save growing disorder, against the horrors of war-time experiences. Ten years ago Waslov Nijinsky disappeared from the public view, going to the retreat of a Swiss sanatorium.

Psychiatrists and other students of mental hygiene will be interested in the exhibition of paintings by Nijinsky, which has just been opened in New York under the direction of his wife and a committee of patrons. Distinguished artists recognized as modern masters have given their word that there is the mark of genius in these paintings, as there was in the terpsichorean art of Nijinsky. Hence it seems evident that mental therapy has in this case salvaged one talent from the wreckage of another.

Fortunately for the health of the world we have come a long way from the days when the mentally sick were considered to be possessed of devils. Even more hopefully, the trend in mental hygiene is toward prevention, of which an ounce, in this field as in any other, continues to be worth a pound of cure.

STOPPING ABUSES

The determination of Congressman Ewin L. Davis, chairman of the House committee on Merchant Marine, Radio and Fisheries, to carry on the fight in his Chamber against the abuse of radio, while the Senate is resting on its ears, after adopting Sen. Couzens' resolution for an investigation of the matter, will be applauded by millions of radio fans in this country.

The ballyhoo advertising that steals so much of the air is not the only cause of well grounded complaint by owners of receiving sets. Slanders and incendiary speeches and statements are being permitted to be broadcast from a certain class of stations, with increasing irresponsibility. A newspaper that put the same language in black and white and circulated it would be promptly haled into court. The air retains no record of what is written upon it; but the broadcast word enters thousands and perhaps millions of human ears and works its purpose on the public mind.

An excellent example of this irresponsible broadcasting is found in the "war news" that some stations have been putting on the air. The other night one of them sent out word that the United States had declared war on Japan! There has not been, as far as the situation in Shanghai is concerned, any intention of the United States' declaring war on either Japan or China or any reason or excuse for its doing so. Attempting to fire public feeling in this country against either of the parties to the Sino-Japanese conflict is against public interest and therefore might legitimately be curbed.

The radio is a comparatively new means of disseminating news and views. That it must be brought, if it is to survive, under regulations similar to those that govern the public press becomes more and more obvious, as the abuses growing up about it multiply. The Federal Radio Commission so far has failed to keep the commercialization of radio within reasonable bounds; and stations in the broadcasting business solely for the money they can get out of it have shown that they are willing to kill the goose if in the meantime they can collect a basketful of golden eggs. If Congress can restore the radio to the owners of receiving sets and preserve it as an instrument of incalculable educational and recreational value it will perform a service for which generations still unborn will have reason to be grateful to it.

Gazetteers

The Mahatma and all the members of his family are now in places where they live at the public expense.

When the radio is really good it is so good that the long periods when it is otherwise are all the more irritating.

It is rather evident that the World Disarmament Conference is going to need all the prayers the godly can put up in its behalf.

In one way the ground hog is distinctly superior to some other kinds of hogs. He butts into the picture only once a year, and then goes back to his hole.

Vision To Bring Peace

By HELEN KELLER

(Helen Adams Keller was born in Tuscumbia, Ala., June 27, 1880. She is a graduate of Radcliffe college and has received several honorary degrees. She has been deaf and blind since the age of nineteen months as result of an illness. Her great fight to overcome her handicaps became a story known to most of the world. Miss Keller formerly was a member of the Massachusetts Commission for Blind and now is connected with various societies for the blind and deaf. Miss Keller now is raising an endowment of \$250,000 for the American Foundation for the Blind. Her publications are: "The Story of My Life," "Optimism, an Essay," "The World I Live In," "The Song of the Stone Wall," "Out of the Dark," "My Religion," and "Midstream—My Later Life.")

Peace will not come through the League of Nations, where the statesmen agree to scrap every thing they won't need in the next

war. Nor will it come through the disarmament conference which is being held in Geneva; neither will it come through tariff walls and moratoriums. Why cannot the people see that the powers that be are trying to drive Russia into war with Japan because it would be easier for them to exploit China if there was an enemy nation between it and Russia?

When captains of industry cannot, or will not, make a proper division of earnings between labor and capital, economic unrest prevails, and a state of affairs arises like what we are now witnessing here and all over the world.

Peace will come only through the enlightenment of the people on the political and economic causes of war, and the acquisitive motives that shape the policies of their rulers. Peace and prosperity will come only when we realize that we live for each other and by each other and not unto ourselves. We need to renew our whole spiritual vision.

MY NEW YORK

By JAMES ASWELL

NEW YORK. — Manhattan Evening: The old coddling for a place to dine. . . There are so many on paper and yet when you come to think. . . "But we were there night before last!" and "I don't feel in the mood for that kind of food." . . The list narrows, then, until Joe's Palace and Mrs. Coty's Tea Room back home symbolize immense variety. . .

So we pick the Cafe des Beaux Arts, in W. 40th street, perhaps the lone "class" survival of the Delmonico-Sherry-Bustanoli era. . . Down one flight into a little room with gilt cherubim smiling blandly from the eaves. The place drips, a little sadly, with the past. . . Emil Gerasini, the owner since 1903, better known simply as Emil, comes to sit at my table. . .

Not many diners now, in this room awake with the ghosts of Harry K. Thaw, Diamond Jim Brady, and the whole spangled naive cavalcade of the early Nineteen Hundreds. . . A girl in a cocktail jacket shimmering with silver scales sits opposite us. . . Emil glasses her way solemnly through his glasses. "Styler," he murmurs. "I remember when Evelyn Nesbit Thaw wore an outfit just like that, 15 years ago." . .

We eat. The meal is leisurely, under the eyes of the golden cherubim, and exquisitely prepared. . . Emil sits quietly, reluctant to summon those gilded Manhattan phantoms he knows so well. . . This is in pleasant contrast to the publicity hungry restaurateurs of modern Broadway. . . He knows vaguely that I write a widely-syndicated column, but I know he never read it, and I am sure it never occurs to him that his place is "copy" any more. . .

OLD TIMES

Emil recalls the time Joe Fejer, a gypsy violinist, still entertaining in the night places, was presented from our very table with a crisp \$1,000 bill — a tip — by a man who has become one of America's most conservative financiers. . . But there was a giddy time, not so far distant, when grand tips were more common than you'd think. . . Then there was that other patron of the Cafe des Beaux Arts' heyday who handed a \$20 bill to the orchestra leader every hour on the dot to penalize himself for missing successive Long Island trains. . . One evening he came in at 6 and missed eight trains. . .

So Emil reminisces quietly, giving material for a hundred columns if I could spare the space. . . After dinner we duck through a passage into one of the private rooms: fitted with a dozen games for diners, ping-pong, horse races, "racketeer," and others. . . And here I run upon the most succulent story in many a moon. . .

The walls of this room are lined with original pastels done by Hassel Coffin, the famous cover artist. . . Close inspection reveals a crease across the middle of every one, where it has been torn and pasted together. . . I question Emil and he comes out with the story. . .

Coffin, who used to have his studio in the Beaux Arts, flared up temperamental over private troubles, tore up all his heads of pretty girls and threw them in the ash can. . . An amazed janitor took them down to Emil and, there they are. . . Mute testimony to a dramatic juncture in the life of an artist. . . The diners rarely notice the tears which stand for tears. . .

HOP, SKIP AND JUMP

They tell me about the shipment of several hundred jackrabbits on their way from Germany to a Westchester hunting preserve. I gather they will be a little late for the hunting season, but surely they won't mind that. When I had rushed over, the executive in his mahogany-paneled office declared that what he had in mind was a novella of mine published in College Humor several years ago. . .

"But we don't think much of the story as a movie," he put in. "Well," I managed, rather nonplussed "why—"
"Oh we like the title, all right. The title is a hum-dinger. We thought you'd write a story to fit the title. Then everything would be fine."

A QUAIN OLD JAPANESE CUSTOM—

EXPANSION CONSIDERED LIFE AND DEATH ISSUE WITH HEMMED-IN JAPAN

CHARLES F. STEWART

WASHINGTON.—"With a rapidly-growing population, already half as large as this country's, trying to exist on the narrow coastal fringe of an otherwise scantily-productive, mountainous island chain, totaling less than the area of California, more room is a matter of life and death to Japan," observes Representative Ernest W. Gibson of Vermont. . .

Col. Gibson toured the Orient extensively last summer, studied its problems thoroughly and discusses them today in the light of perhaps the completest fund of up-to-date information of any member of congress. . .

Recognition of the vital necessity of an expansion program to the Japanese does not blind the New Englander to the danger involved in it from the standpoint of occidental civilization. . .

"Tokio's statesmanship," he says, "aims unmistakably at domination of the Pacific, in my opinion including the ultimate acquisition of the Philippines and Australia. . .

"Australia of course is thinly settled—a field for the absorption of Japan's overflow into the indefinite future. . .

"The Philippines are not over-crowded, as populations are reckoned in the Orient. The Japanese also need the archipelago strategically, for fulfillment of their policy. It is worth remembering that half the inhabitants of the world live within a 2,400-mile radius of Manila." . .

"In the meantime," continued the Green Mountain representative, "Nippon must intensify industrially to support its cramped 60,000,000. . .

"Control of Manchuria is essential to this industrialism, for the sake of a dependable supply of raw materials. A market for the output of their factories is equally essential and the thronging Yangtze valley affords an ideal one, if they can make it their monopoly. Shanghai is the key to it. . .

"Thus far Japan's method has been to advance step by step toward its objective, each step being represented by about one brisk fight and a great deal of ensuing diplomacy." . .

"Nearly 40 years ago," recalled the congressman, "the islanders had a small war with China, marked by the naval battle of the Yalu river. They won it easily and, through the international conversations which followed, gained their initial mainland foothold, in Korea. . .

"A decade later they had several important engagements during their war with Russia, but it was mainly by virtue of the treaty of Portsmouth that they extended their sphere of influence in northern China. . .

"During the world conflict their only battle was with the German garrison of Kiaochow, which, after taking, they lost, it is true, at the Washington conference, but not without strengthening their Chinese interests otherwise in return for this temporary complaisance." . .

"Judging from the past," said the Vermont, "it would be logical to assume that their seizure of Shanghai was intended by the Japanese to be the climax of their present military activities, on the theory that what they get by force they generally manage to keep by negotiation. . .

"There appears, however, to be a possibility that, in this instance, they will prove to have overdone themselves to an extent which will make it difficult for them to stop just where they probably planned to stop. . .

"The chance also is to be reckoned with that Tokio statesmanship deliberately has steered the country into what it knows to be a formidable foreign venture, with a view to offsetting a state of domestic discontent which is assuming alarming proportions. . .

"Predictions from excellent sources were made to me, during my last summer's stay in the east, of a Japanese revolution within ten years at most, in favor of a more liberal regime. . .

"The launching of a foreign war would be a natural means, in such a situation, of consolidating public opinion behind the existing order." . .

Budgets For The Entire Family

By MRS. MARY MORTON

GUIDE CARDS

By MRS. MARY MORTON

In using the box type of record for your family expenditures, it is convenient to use colored cards of cards with colored tabs for the main heads and regard them only as guide cards, all the entries being made on the white cards filed behind these guides. If the cards are kept in a suitable box there should be little difficulty in handling them, but unless a very detailed system is required, or unless a flexible record which can be kept according to different subheads at various times is necessary to meet the needs of the family, some form of book is undoubtedly more convenient for most persons. . .

For small families, especially if living in a city apartment, or for individuals the expenditures for a month could be kept on two pages ruled off in boxes as in the figures last given. . .

These boxes may be arranged in different ways so that more room may be provided for certain items. For example if a family were boarding, less space could be given to food, since one to four entries in the month would care for that item, and more space would then be available for whatever item seemed to require it. Some headings, indeed, might not be needed at all. In all record keeping, the main thing is to find a system which will suit the particular needs of the record keeper. . .

The advantage of this card type of record is its compactness. . .

TASTY WAY TO COOK ONIONS

BAKED ONIONS IN TOMATO SAUCE

Bureau of U. S. Department of Agriculture

Ten medium-sized onions, three plates of canned tomatoes, one bay leaf, one-half teaspoon celery seed, three cloves, three tablespoons flour, three tablespoons melted butter, margarine or other fat, three teaspoons salt, pepper. Skin the onions, cut in half, simmer in drain, and put in large baking dish. Cook the tomatoes with the bay leaf, celery seed and cloves for 10 minutes and strain. Blend the flour and melted fat, add to the tomato juice with the salt and pepper, and mix well. Pour over the onions, cover and cook until the onions are tender, about one hour. Serve from the baking dish. Seasoning can, of course, be varied as desired. Serves 10. . .

Oh, Annie! cry and storm and rave!
Do anything with passion in it!
Hate me an hour, and then turn round
And love me truly, just one minute.
—William W. Story (1819-1895)

How Lead Poisoning Is Acquired

By LOGAN CLENDENING, M. D.

Eating paint off the furniture, woodwork, toys or pencils, is not just a bad habit vaguely "not good for the child." It results in a quite definite disease—lead poisoning. . .

That this occurs frequently in infants and children has only recently been recognized. . .

In adults the manifestations of lead poisoning have been recognized for a long time. They are, of course, almost always associated with occupations which involve the handling of lead. Nobody ever thinks of exposure to lead in little children—and that is probably why so many cases go without diagnosis or even suspicion that anything definite is wrong. . .

Lead gets into the body in very insidious ways—through the skin, by being breathed in, etc. All animals are susceptible to it. Birds that feed on berries in the neighborhood of smelting furnaces have been found to be affected with lead poisoning. . .

In adults the symptoms are strange metallic pallor to the skin, a blue line on the gums, various nervous symptoms and colic. "Devonshire colic" was the name first given the disease; it was proved by old Sir George Baker that the colic was due to drinking the elder of Devonshire which had lead in it from the habit of stirring the cider in the vats with a lead weight. . .

In children these symptoms are not so marked. Since during the teething period children have the habit of chewing anything or ev- . .

anything, it is during that time—often two years—that the condition is likely to be found. . .

The children are restless and irritable and have a perverted appetite (or pica). Pallor is usually present. Constipation, a symptom of the condition in adults, is marked; colic may be suspected even if the child cannot explain it. Vomiting has been noted. In very severe cases, nervous symptoms similar to those in adults come on. Even paralysis, which has been mistaken for infantile paralysis. . .

X-ray examination of the abdomen is a way to detect it, as is pointed out by a recent writer in the Journal of the American Medical Association. . .

It is well known that in lead poisoning in adults the lead is deposited in the bones, replacing calcium there. It does this also in children, and can be easily detected by a heavy line on the X-ray plate at the ends of certain bones, especially the ribs, but also the bones of the forearm. . .

Editor's Note: Pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin, for each, and a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper or Central Press Association, 1435 East Twelfth Street, Cleveland, O. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin." . .

Satisfied With Wife

By MRS. VIRGINIA LEE

"DEAR VIRGINIA LEE: I wonder if you would be interested in my story. Perhaps, after reading it you will merely say, 'No fool like an old fool,' and perhaps you will be right. All I can say is the story is true. . .

"I am between 50 and 60. I love my wife sincerely; find my greatest pleasure in her company; we have no disagreements other than the trifles that come up between any two people. . .

"About five years ago I met a woman about 18 years younger than I. Little by little, almost unconsciously, a feeling toward her has grown on me that is almost exactly like the feeling I had when courting my wife. This woman cannot be called beautiful, but her character and disposition are beautiful. . .

"I see her to speak to only at intervals, and then usually not more than a salutation. She is happily married and has a family. My wife and I and her family are very good friends. Very rarely do I see her to speak to alone. Never have I uttered a word to her other than those of ordinary friendship. But in some way she has aroused a sentiment in me that I can describe in no other way than to say that I love her. If I see her come into a room it thrills me. . .

"I avoid her at times; look elsewhere rather than at her; berate myself mentally for an old fool and make up my mind to forget her. I can't do it. . .

"I know a great deal of her family affairs, her necessary economies, her children's sicknesses, accidents, etc., and it invariably arouses a deep feeling of sympathy and a wish that I could help her. I conceal my feelings, but she persists until I wish I had never seen her or could never see her again. I don't want her. I am perfectly happy and satisfied with my wife. Yet, I am tormented with the feeling that I have toward the other woman. Question: Can one truly love two people at the same time? . .

"I don't expect you to solve my problem. I'll cure myself eventually. But meantime it is almost a torment to have such an undesired feeling force itself on me. I feel ashamed and disgusted with myself and tell myself to forget it and . .

UNHAPPY: Yes, I can give you advice, my dear. Thank goodness for your good husband and fine boys and be so happy together that no outside influence can touch you. . .

Perfumed Baths Cheap

By GLADYS GLAD

Perfumed baths, which Voltaire once called "the luxury of luxuries," have been indulged in by people of wealth the world over since the earliest times. Even the cream of the crop of Pharaoh's day and age bathed in perfumed water. But nowadays, it's not only the wealthy who can enjoy the delights of a perfumed bath. Kid Poverty herself can do so, if she's "in the know." . .

There are any number of ways of perfuming the bath. There are bath salts, bath tablets and toilet waters on the market that not only perfume the bath, but soften the water for perfuming and softening bath water that can be made at home most cheaply and successfully. . .

There's one recipe, especially, for perfuming the bath that is a great favorite in England, and is extremely simple for the woman of limited means to prepare. An equal amount of dried lavender flowers and rose petals (which may be procured in any drug store) should be placed in a receptacle and combined with an equal quantity of borax and orris root powder. Their mixture should be placed in a small muslin bag. The bag should be sewed shut, and a ribbon or cord attached to it. When the tub is to be filled for the bath, then, the bag should be suspended by the ribbon or cord from the hot water tap, so that the running water pours directly over it. And when the water runs into the tub the bath and the atmosphere of the whole room become permeated with the fragrance of the compound. . .

There's a simpler procedure than this for perfuming and softening . .

bath water, however, and it's also effective. Make small cheesecloth bags and place in each of them a cup of ordinary bar soap, a tablespoon of musk, sweet-bay, lavender, orange flowers, rosemary, jasmine flowers, orris root or any like fragrant flower or herb. . .

Then, when taking a bath, toss one of the bags into the tub of water. It will give the water, and hence your skin, a most delightful delicate fragrance. . .

ANSWERS TO QUERIES

Glycerine

Pat: I have never heard of a case in which glycerine has caused the growth of hair on the face. This is more or less of a groundless superstition. . .

Mouth Wash

Jack: An effective mouth wash can be made by dissolving one-fourth teaspoon borax, one-fourth teaspoon salt and one-fourth teaspoon peroxide in a glass of warm water. . .

Legs

Rita: It would be impossible for me to print my method of reducing knees, calves and ankles in this brief space. The method is fully described, however, in my article "Care of the Feet and Legs." . .

Colors

Auburn: I think that you will find shades of tan, brown, russet, pinkish beige, capucine, cool greens, mat white and black most becoming to you. . .

Agar-Agar

J. S.: Agar-agar benefits the complexion in that it assists in clearing the intestines of poisonous wastes. It may be purchased in any well-stocked drug store. . .

SPORT SNAP SHOTS

FRAMED
by Phil

Three more basketball engagements—two of which are carded for this week end—remain to be played by Xenia Central High this season before the state tournament competition begins.

The Buccaneers, virtually out of the running for the Miami Valley League title for the first time since the league was founded, face their fifth league foe Friday night at Central gymnasium, meeting Greenville, present occupant of first place.

Saturday night the Xenia quintet plays its last away-from-home contest against Springfield. High. As an indication of what the Bucs will be up against at Springfield, it may be mentioned that the Wildcats swamped Piqua, 50 to 13 last Saturday.

Xenia cagers have an opportunity to destroy Greenville's title chances Friday night as the game is the last on Greenville's league schedule.

The final game of the campaign for the Bucs is also their last league contest with Piqua here Friday night, February 19.

Xenia's record for the season stands at four games won and eight lost.

For many years "Gentle" John Kilonis has been rated as the toughest hombre to step into a wrestling ring at Dayton. When it came to kneeling, slugging or other rough tactics, Kilonis was there with a bang, but lately a newcomer has appeared on the scene who seems to have usurped the Greek's throne.

Sudayman Bey, the "terrible" 195-pound Turk, is being acclaimed as the new rough house king. The Turk, who has been in seventeen matches since the first of the year, winning one and losing sixteen on disqualifications, has been a sensation.

Thursday night this week mat fans in the Miami Valley should see a great show at Memorial Hall in Dayton when the Quality Athletic Club stages a program of four one-hour bouts, topped off with a return duel between Kilonis and Bey.

The bout between these two wrestlers featured at Cleveland three weeks ago, set a new attendance record for the city and ended in a near riot. Bey was actually disqualified for outroughing the gentle personage, Kilonis.

Kilonis agreed to the return match on one condition—that there shall be no disqualifying of either one. Everything goes but the strangle hold.

The sports writers of New York are referring to Dan Howley, manager of the Cincinnati Reds, as "Howling Dan" and no wonder. They explain that anybody who takes over the thankless job of managing the Cincinnati club should soon be howling.

Bowling

The spurt of the Famous Autos in the Recreation League was short-lived as the second-placers lost three straight games to the league-leading Red Wing Co. bowlers Tuesday night. The Red Wing quintet totalled 2,840. Carl Highley had a series of 648, followed by Anderson and Pesavento, each with 598 for the winners. Horner collected a total of 599 and Peterson a series of 590 for the Famous Autos. Box score:

Red Wings		
Anderson	223	207
Highley	221	237
Moore	128	234
Pesavento	194	179
Gannon	169	158
Totals	935	1015
Famous Autos		
Cox	164	156
McCoey	169	170
Swindler	160	237

Peterson	171	236
Totals	865	997

DECLARES JOBLESS INSURANCE NEEDED

"Industrial conditions have changed so radically in the past twenty-five years that now unemployment insurance is a necessity," declared Prof. W. M. Leiserson, teacher of economics at Antioch College, in an address on "Unemployment Insurance" at a dinner meeting of the Kiwanis Club at the Elks' Club Tuesday evening. "Corporations should create a fund for unemployment the same as they create a fund for dividends," he continued.

The club drew up a resolution endorsing the Dixie Highway to pass through Xenia in connection with a movement sponsored by cities in this section. J. E. Balmer and Carl Ervin sang a duet as a feature of the program.

SCHMELING OKEYED

NEW YORK, Feb. 10.—The last obstacle in the way of the heavy weight championship bout between Max Schmeling and Jack Sharkey here on June 16 had been removed today with the reinstatement of Schmeling and his managers, Joe Jacobs and Billy McCarney, by the New York State Athletic Commission.

War - Torn Streets Of Shanghai Recall Vivid Scenes Of Conflict

Scenes like these, taken during Chinese civil war, are viewed in Shanghai today. Left, above, Chinese troops in the streets of

Shanghai; center, Japanese marine squad patrolling the Hangkew district in the Chinese port; right, above, the first published picture of

the Chapel or native district of Shanghai where hundreds have been killed; left, Chinese soldiers in a ruined building, breaking

enemy ranks with machine gun fire; right, Japanese machine gunners on the roof of a house looking for snipers.

ST. BRIGID CAGERS WIN OVER HOLY ANGELS TEAM AT SIDNEY

Rallying after a slow start, the St. Brigid High School basketball quintet began hitting on all five cylinders in the second half and scored an impressive 15 to 6 triumph over Sidney Holy Angels in a return contest on the Sidney floor Tuesday night.

The victory expanded the Xenia parochial school's winning streak to four straight games and it marked the second time the Saints have beaten the Sidney cagers this season. Less than a month ago St. Brigid beat Holy Angels here, 16 to 14.

Erecting a sturdy defense, St. Brigid held its opponents to a pair of field goals during the game. The

first half was marked by airtight guarding on the part of the rival quintets and at the intermission the Xenia basketweavers were leading by a slender margin of 6 to 4.

Starting the second chapter of the game, St. Brigid's court machine began to gather momentum and soon pulled away, tallying nine more points while Sidney was being limited to two points, both obtained on free throws.

Scoring seven points on two baskets and three fouls, Joe Fletcher, forward, topped the St. Brigid point-guard, Guido Pesavento, his running mate, and Joe Zenni, guard, gave fine floor game exhibitions.

St. Brigid has two more games remaining on its schedule, both to be played in Xenia. The local Catholic team will play a return game with Urbana St. Marys at Central High gym Thursday night, February 18, and a return contest with the U. of D. Preps from Dayton here March 3. Lineups:

St. Brigid	G.	F.	P.
Fletcher, f.	2	3	7
Pesavento, f.	0	0	0
McCormick, f.	0	0	0

DELEGATION CHIEF SAYS NATION EAGER TO FURTHER EFFORT

(Continued from Page One)

the whole population of the country, or 35 per cent. Less than pre-war days.

"The Japanese delegation favors reduction of the size of battleships and the calibre of guns.

"We would further propose reduction of the assigned tonnage of aircraft carriers, since their functions would be of a most aggressive nature and their construction involves tremendous cost. We are prepared further to consider the possibility of their total abolition together with that of equipped vessels with airplane landing decks.

"As to proposals for total abolition of submarines, the Japanese view was clearly set forth at the London Conference. In short, it is not so much the original nature of the submarine being inhuman as its wanton use.

"Surface craft would be just as inhuman according to its use. As to use of the submarine, strict limitation was stipulated at London. We hoped that all the naval powers would adhere to that declaration and it is the conviction of the Japanese delegation that agreement upon strict limitation of the use of all classes of war vessels.

"The question of prohibition of air bombardment and the use of poison gases and pleural bacteria has been suggested by some of my colleagues. I am glad that all opinions agree upon this matter because it is equally shared by the Japanese delegation.

"Japan is prepared to contribute to formulation of an agreement—a fair, equitable, practical and economical agreement—through which limitation and reduction of armaments can be best effected with assurances that national safety will not be impaired.

"When all nations sincerely desire to become good and trusted friends," he concluded, "when all nations are prepared to discharge faithfully their domestic and international responsibilities; when all nations feel they can work out their own destinies with peace of mind, then and then alone will our task approach an end."

Foreign Minister August Zaleski of Poland followed Matsudaira, expressing satisfaction over inclusion in the agenda of the French proposals giving the League effective executive powers to enforce peace. He stated that the draft convention "although not perfect" comprises the first attempt of undoubted value.

JAPS REPULSE ENEMY ATTACK

(BULLETIN)

SHANGHAI, Feb. 11 (Thurs. day 1 a. m.)—Chinese troops which several times charged the Japanese defense in the Kiangwan area were driven back with heavy loss of life when Japanese machine guns decimated their ranks it was learned early today.

The Chinese charges began at 2:15 p. m. Wednesday. The Japanese, protected by barbed wire and machine gun emplacements, finally repulsed the Chinese who at length were forced to surrender almost half a mile of hard won ground.

PLAN PRAYER DAY AT TABERNACLE

The annual World Day of Prayer will be observed in Xenia Friday with all day services at the Tabernacle, E. Third St. It is announced. Instead of cottage prayer meetings at various homes in the city a union prayer meeting will be held at 10 a. m. under the direction of Homer Hammonds, member of the evangelistic party. A box luncheon will be served at noon.

The afternoon program will open at 1 o'clock and the program will be divided into periods with various women of the city as leaders of the periods. The complete program will be announced later.

N. Y. STOCK MARKET

NEW YORK, Feb. 10.—The drift to lower prices in all sections of the market was resumed at the opening today and continued with little interruption in the first hour.

A slump in steel output, as reported by the Iron Age, and a lack of evidence of any pick-up in the automobile industry, were the outstanding factors in the speculative markets.

TREASURY BALANCE

WASHINGTON, Feb. 10.—Treasury balance as of Feb. 8, \$599,181,936.64; expenditures \$18,465,466.30; customs receipts \$6,605,978.61.

DAIRYMEN TO HEAR DISCUSSION HERE ON FRIDAY EVENING

Greene County dairymen will hear a discussion on dairy production and marketing problems in the assembly room of the Court House, Friday at 7:30 p. m. by representatives of the Miami Valley Cooperative Milk Producers' Association and the Agricultural Extension Department of Ohio State University. This meeting is sponsored by the Xenia local of the Miami Valley Cooperative Milk Association of which Elmer Hessel is president. All dairymen are invited and urged to attend.

J. C. Neff of the department of rural economics of Ohio State University, will discuss the "Dairy Situation From the Standpoint of Production and Consumption," and from the conclusion will point out some factors dairymen should consider in the future. Ivan McKellip of the department of animal husbandry of Ohio State University will speak on "Feeding and Management Practices Under Present Conditions."

Fred Flynn, in charge of the milk marketing department of the Miami Valley Association, will discuss the accomplishments of the association during the past year, and will outline some of the work that organized dairymen hope to accomplish during the coming year.

Officers will be elected for the coming year and refreshments will be served following the meeting.

U. S. STILL LEADS

LAKE PLACID, N. Y., Feb. 10.—The United States enjoyed a lead of twenty-five points over Canada, its nearest competitor, as the seventh day of the winter Olympic games got underway today. The unofficial point score: United States, 58; Canada, 33; Norway, 14; Austria, 10; Sweden, 5; Finland 3; Germany 2.

SPRING IS HERE

LANCASTER, O., Feb. 10.—Here's news about summer that will make you shiver: Harley Benson and his brother, Arthur, farmers of near Carroll, O., dug into a nest of eleven water snakes averaging two feet in length yesterday while ditching on the Benson farm. "They were just as lively as they are in the summer time," said Harley. "Which is plenty lively," added Arthur.

EX-CHAPLAIN DIES

COLUMBUS, O., Feb. 10.—Rev. Fr. Francis Louis Kelly, 80, Catholic chaplain at the Ohio Penitentiary for twenty-seven years, is dead at the Dominican Fathers' Home for the Aged at the Holy Rosary convent in Minneapolis, according to word received here.

MARKETS LIVE STOCK

CINCINNATI LIVESTOCK

SPORT SNAP SHOTS

FRAMED
by Phil

Three more basketball engagements—two of which are carded for this week end—remain to be played by Xenia Central High this season before the state tournament competition begins.

The Buccaneers, virtually out of the running for the Miami Valley League title for the first time since the league was founded, face their fifth league foe Friday night at Central gymnasium, meeting Greenville, present occupant of first place.

Saturday night the Xenia quintet plays its last away-from-home contest against Springfield High. As an indication of what the Bucs will be up against at Springfield, it may be mentioned that the Wildcats swamped Piqua, 50 to 13 last Saturday.

Xenia cagers have an opportunity to destroy Greenville's title chances Friday night as the game is the last on Greenville's league schedule.

The final game of the campaign for the Bucs is also their last league contest with Piqua here Friday night, February 19.

Xenia's record for the season stands at four games won and eight lost.

For many years "Gentle" John Kilonski has been rated as the toughest hombre to step into a wrestling ring at Dayton. When it came to kneeling, slugging or other rough tactics, Kilonski was there with a bang, but lately a newcomer has appeared on the scene who seems to have usurped the Greek's throne.

Sualayman Bey, the "terrible" 195-pound Turk, is being acclaimed as the new rough house king. The Turk, who has been in seventeen matches since the first of the year, winning one and losing sixteen on disqualifications, has been a sensation.

Thursday night this week mat fans in the Miami Valley should see a great show at Memorial Hall in Dayton when the Quality Athletic Club stages a program of four one-hour bouts, topped off with a return duel between Kilonski and Bey.

The bout between these two wrestlers featured at Cleveland three weeks ago, set a new attendance record for the city and ended in a near riot. Bey was actually disqualified for outroughing the gentle personage, Kilonski.

Kilonski agreed to the return match on one condition—that there shall be no disqualifying of either one. Everything goes but the struggle hold.

The sports writers of New York are referring to Dan Howley, manager of the Cincinnati Reds, as "Howling Dan" and no wonder. They explain that anybody who takes over the thankless job of managing the Cincinnati club should soon be howling.

Bowling

The spurt of the Famous Autos in the Recreation League was short-lived as the second-placers lost three straight games to the league-leading Red Wing Co. bowlers Tuesday night. The Red Wing quintet totaled 2,840. Carl Higley had a series of 648, followed by Anderson and Pesavento, each with 598 for the winners. Horner collected a total of 599 and Peterson a series of 590 for the Famous Autos. Box score:

Red Wings			
Anderson	223	207	168
Higley	221	237	190
Moore	123	234	122
Pesavento	194	179	225
Gannon	169	158	175
Totals	935	1015	890
Famous Autos			
Cox	164	156	188
McCoey	169	170	158
Swindler	160	237	143
Horner	201	198	200
Peterson	171	236	183
Totals	865	997	877

DECLARES JOBLESS INSURANCE NEEDED

"Industrial conditions have changed so radically in the past twenty-five years that now unemployment insurance is a necessity," declared Prof. W. M. Leiserson, teacher of economics at Antioch College, in an address on "Unemployment Insurance" at a dinner meeting of the Kiwanis Club at the Elks' Club Tuesday evening. "Corporations should create a fund for unemployment the same as they create a fund for dividends," he continued.

The club drew up a resolution endorsing the Dixie Highway to pass through Xenia in connection with a movement sponsored by cities in this section. J. E. Balmer and Carl Ervin sang a duet as a feature of the program.

SCHMELING OKEYED

NEW YORK, Feb. 10.—The last obstacle in the way of the heavyweight championship bout between Max Schmeling and Jack Sharkey here on June 16 had been removed today with the reinstatement of Schmeling and his managers, Joe Jacobs and Billy McCarney, by the New York State Athletic Commission.

War - Torn Streets Of Shanghai Recall Vivid Scenes Of Conflict

Scenes like these, taken during the Chinese civil war, are viewed in Shanghai today. Left, above, Chinese troops in the streets of Shanghai; center, Japanese marine squad patrolling the Hangkew district in the Chinese port; right, Chinese troops in the streets of Shanghai, the first published picture of the enemy ranks with machine gunners on the roof of a house looking for snipers.

ST. BRIGID CAGERS WIN OVER HOLY ANGELS TEAM AT SIDNEY

Rallying after a slow start, the St. Brigid High School basketball quintet began hitting on all five cylinders in the second half and scored an impressive 15 to 6 triumph over Sidney Holy Angels in a return contest on the Sidney floor Tuesday night.

The victory expanded the Xenia parochial school's winning streak to four straight games and it marked the second time the Saints have beaten the Sidney cagers this season. Less than a month ago St. Brigid beat Holy Angels here, 16 to 14.

Erecting a sturdy defense, St. Brigid held its opponents to a pair of field goals during the game. The

first half was marked by airtight guarding on the part of the rival quintets and at the intermission the Xenia basketball team was leading by a slender margin of 6 to 4.

Starting the second chapter of the game, St. Brigid's court machine began to gather momentum and soon pulled away, tallying nine more points while Sidney was being limited to two points, both obtained on free throws.

Scoring seven points on two baskets and three fouls, Joe Fletcher, forward, topped the St. Brigid point-getting, Guido Pesavento, his running mate, and Joe Zennl, guard, gave fine floor game exhibitions.

St. Brigid has two more games remaining on its schedule, both to be played in Xenia. The local Catholic team will play a return game with Urbana St. Marys at Central High gym Thursday night, February 18, and a return contest with the U. of D. Preps from Dayton here March 3. Lineups:

DELEGATION CHIEF SAYS NATION EAGER TO FURTHER EFFORT

(Continued from Page One)

the whole population of the country, or 35 per cent. Less than pre-war days.

"The Japanese delegation favors reduction of the size of battleships and the calibre of guns.

"We would further propose reduction of the assigned tonnage of aircraft carriers, since their functions would be of a most aggressive nature and their construction involves tremendous cost. We are prepared further to consider the possibility of their total abolition together with that of equipping vessels with airplane landing decks.

"As to proposals for total abolition of submarines, the Japanese view was clearly set forth at the London Conference. In short, it is not so much the original nature of the submarine being inhuman as its wanton use.

"Surface craft would be just as inhuman according to its use. As to use of the submarine, strict limitation was stipulated at London. We hoped that all the naval powers would adhere to that declaration and it is the conviction of the Japanese delegation that agreement upon strict limitation of the use of all classes of war vessels.

"The question of prohibition of air bombardment and the use of poison gases and chemical bacteria has been suggested by some of my colleagues. I am glad that all opinions agree upon this matter because it is equally shared by the Japanese delegation.

"Japan is prepared to contribute to formulation of an agreement—a fair, equitable, practical and economical agreement—through which limitation and reduction of armaments can be best effected with assurances that national safety will not be impaired.

"When all nations sincerely desire to become good and trusted friends," he concluded, "when all nations are prepared to discharge faithfully their domestic and international responsibilities; when all nations feel they can work out their own destinies with peace of mind, then and then alone will our task approach an end."

Foreign Minister August Zaleski of Poland followed Matsudaira, expressing satisfaction over inclusion in the agenda of the French proposals giving the League effective executive powers to enforce peace. He stated that the draft convention "although not perfect" comprises the first attempt of undoubted value.

JAPS REPULSE ENEMY ATTACK

(BULLETIN)

SHANGHAI, Feb. 11 (Thursday 1 a. m.)—Chinese troops which several times charged the Japanese defense in the Kiangwan area were driven back with heavy loss of life when Japanese machine guns decimated their ranks it was learned early today.

The Chinese charges began at 2:15 p. m. Wednesday. The Japanese, protected by barbed wire and machine gun emplacements, finally repulsed the Chinese who at length were forced to surrender almost half a mile of hard won ground.

PLAN PRAYER DAY AT TABERNACLE

The annual World Day of Prayer will be observed in Xenia Friday with all day services at the Tabernacle, E. Third St. It is announced. Instead of cottage prayer meetings at various homes in the city a union prayer meeting will be held at 10 a. m. under the direction of Homer Hammon, member of the evangelistic party. A box luncheon will be served at noon.

The afternoon program will open at 1 o'clock and the program will be divided into periods with various women of the city as leaders of the periods. The complete program will be announced later.

TOTAL		

Here's how to get your intelligence score: If you think a statement is true, place a check beside it in the column headed "True." If you think it false, place a check beside it in the column headed "False." After you have completed the questions look up the correct answers and put 10 down in the "Score" column every time you are correct. A perfect score is 100.

Answers to "Sez You" on Page 6

N. Y. STOCK MARKET

NEW YORK, Feb. 10.—The drift to lower prices in all sections of the market was resumed at the opening today and continued with little interruption in the first hour. A slump in steel output, as reported by the Iron Age, and a lack of evidence of any pick-up in the automobile industry, were the outstanding factors in the speculative markets.

NEW YORK STOCK MARKET QUOTATIONS received from W. E. Hutton and Co., Mutual Home Bldg., Dayton, at 2 p. m. daily.

TREASURY BALANCE
WASHINGTON, Feb. 10.—Treasury balance as of Feb. 8, \$599,181,736.64; expenditures \$18,465,466.30; customs receipts \$6,605,978.61.

SPRING IS HERE

LANCASTER, O., Feb. 10.—Here's news about summer that will make you shiver. Harley Benson and his brother, Arthur, farmers of near Carroll, O., dug into a nest of eleven water snakes averaging two feet in length yesterday while ditching on the Benson farm. "They were just as lively as they are in the summer time," said Harley. "Which is plenty lively," added Arthur.

EX-CHAPLAIN DIES
COLUMBUS, O., Feb. 10.—Rev. Fr. Francis Louis Kelly, 80, Catholic chaplain at the Ohio Penitentiary for twenty-seven years, is dead at the Dominican Fathers' Home for the Aged at the Holy Rosary convent in Minneapolis, according to word received here.

JOHN L. SULLIVAN

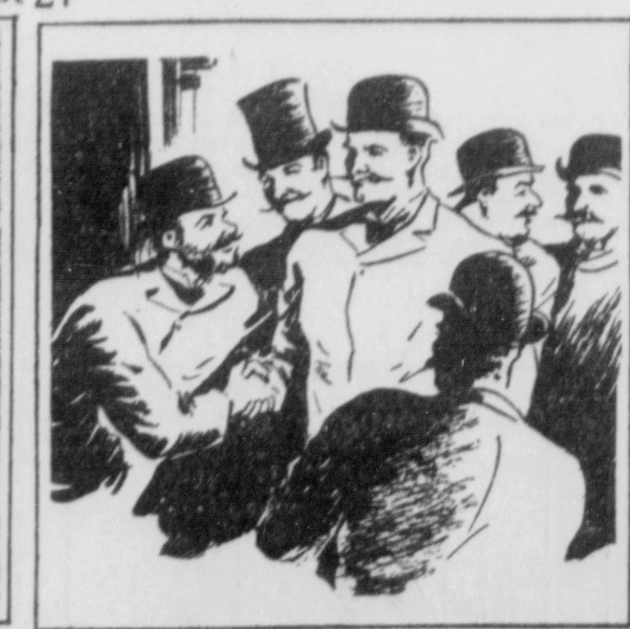

Crossley, John L. Sparring

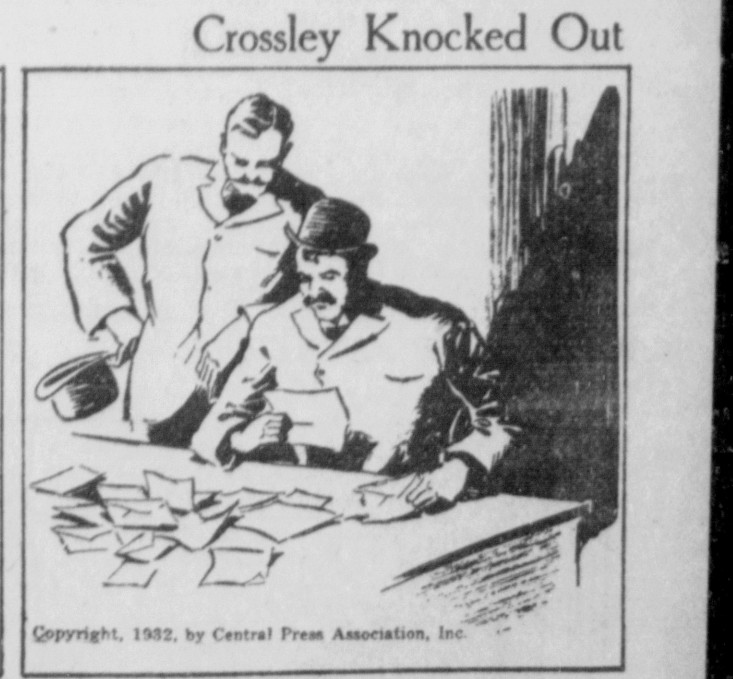

Crossley Knocked Back

No. 21

Philadelphians Hail John L.

John L. Reads Congratulations

SULLIVAN shrewdly figured that the presence of Ryan in the crowd was a ruse by the Philadelphia friends of his opponent, Fred Crossley, to distract him. So he promptly forgot the champion's presence in the audience and when the signal was given dashed out of his corner. The giant Crossley was still in his own corner when the human catapult, which was Sullivan, struck him. John L. hit but two blows.

THE FIRST was a lightning left which cracked Fred squarely on the jaw. The giant staggered back and as he did so John L. drove a hard right to the same spot and Crossley crashed to the floor. The giant was out for 20 minutes. Sullivan sauntered to the ropes and waved gaily at Ryan, who, like the rest of the spectators, was staring popped at John L. and the huge lumberjack slumbering on the floor.

"THAT FELLOW Sullivan," muttered Ryan, as the champion with his party of friends elbowed his way out of the hall, "is a very, very clever young boxer!" The Philadelphia sports were now so enthusiastic about John L. that they offered Madden and Jim Keenan, John L.'s backer, financial assistance in backing Sullivan for a title fight with Ryan. But both refused. John L. was their man and they alone would back him.

WHEN JOHN L. arrived at his New York headquarters, Harry Hill's place, Sullivan found many

39 Houses—Unfurnished

FOR rent Feb. 27, 7-room house on S. Detroit St. Modern except furnace. Phone 807-W.</

Economic Reform Felt; Stars Still Look Svelte

Every day, it would appear, Hollywood is becoming more practical. The latest reform is aimed against designing special gowns for pictures.

Mrs. Brock Pemberton, newly appointed head of the RKO wardrobe department, is leader of the movement. Instead of having creations made up from sketches, she plans to buy original models from the New York and local shops.

Some of the most fashionable establishments in the country have agreed to submit gowns on approval and to hold them exclusively until the studio has had first call. New York shops will send their richest creations air-mail to Hollywood. For four years a costumer for a

Of course she'll have to wear a wig, as the heroine is an Indian girl. Meanwhile Carl Laemmle Jr. has engaged Earl Haley to do the screen play. Haley is a native of Arizona and has taken a camera crew to get winter scenes on the Navajo Reservation, where the snow stands five feet deep.

Jack Oakie is to play Frederic March's friend in "I, Jerry Take Thee Joan", a story about a newspaper man who married a society girl. Sylvia Sidney is the girl and Dorothy Arzner, the screen's best known woman director, is to keep an official eye on the proceedings.

Dorothy Sebastian had a letter from Alice Terry in Egypt. Her husband, Rex Ingram, is acting in his new picture, "Baroud" and Alice is assisting in the direction. Both are learning Arabic. . . . Dorothy Lee underwent an appendicitis operation at Mercy Memorial Hospital in Whittier, Calif.

Twenty Years '12- Ago -'32

Messrs. J. F. Orr and Jacob Kany went to Columbus to represent the Xenia School Board at the State Association of School Board members. Mr. Austin Patterson will attend Friday's session.

The Xenia Home Mission of the Friends Church will give a box social at the home of Alonzo Peele, February 13.

Mr. and Mrs. Walter Currie are the parents of a baby daughter, born Friday.

Jimmy South, champion tennis bowler of the world, will be brought to the Brunswick alleys for an exhibition February 20.

David Manners

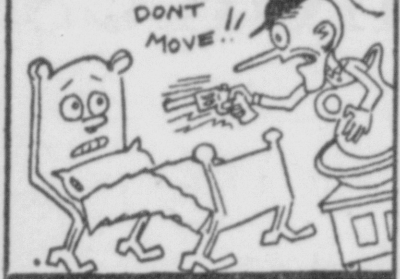

Striding ahead since "The Miracle Woman."

New York department store, Mrs. Pemberton has already tried this plan at Eastern studios. "I shall have a designer, of course," she says, "but, in most cases, it is highly unsatisfactory to choose gowns from sketches. They look so different when made up. Under my plan the star will have the finished garment and will require only one fitting. This will save a lot of inconveniences, and the gowns will be just as smart as if we had made them up ourselves. The new system will be tried out on Ann Harding's picture, "Westward Passage" and later on Connie Bennett's "A Free Lady."

The question of the working wife continues to be one of the most popular themes in the new crop of pictures. Over at Warner's they've decided to let David Manners and Loretta Young reenact the problem in Faith Baldwin's new novel, "Week-End Marriage." At one time this was considered as a possible Ruth Chatterton vehicle, but now Daryl Zanuck has other plans for Ruth.

When Lew Ayres makes "Laughing Boy" from Oliver La Farge's Pulitzer Prize novel, he'll very likely have Mae Clarke for a partner.

SPECIAL PROGRAMS FOR JUNIOR GARDEN CLUBS ARE PLANNED

Special programs are being outlined for the Xenia George Washington Chapter of the Junior Garden Clubs of America recently organized here and handicraft articles are suggested for both boys and girls to make during the year. The chapter is organized into patrols by grouping five or more members under two leaders in each patrol. Each patrol has its president and secretary-treasurer, who are under the direction of an advisor or overseer. The advisor or overseer is an older person, usually a teacher, when the organization is formed in the school. The leaders of the patrols under direction of the advisor call the meetings to present whatever activities that respective group is supposed to accomplish. Each member of the chapter has been asked to keep a tree diary. Included in this diary will be an essay on George Washington and his Mount Vernon garden; snapshots of trees and pictures of trees cut from nursery catalogues. A list of questions pertaining to trees has been given each member and this with the answers is also kept in the book together with specimens of trees, twigs and pieces of mounted bark. Among the handicraft articles suggested for the boys are bird houses, bird feeding trays, miniature rock gardens, flower boxes, miniature hot beds and seed flats, plant markers, small size garden furniture to place in miniature rock gardens. For girls, who are members of the chapter it is suggested that they make any of the following articles: dish gardens, cloth seed containers, cookbooks with vegetable recipes, decorated glass bottle flower vases, flower garden scrapbooks, with colored pictures of flowers and description of each one named, flowers preserved in paraffin, personal garden calendars telling planting time for flowers and vegetables.

ELEAZER

Mr. and Mrs. Floyd Weaver and family, and Mr. and Mrs. Oakley Edgington and family spent Friday evening with Mr. and Mrs. Vernon Jones. Miss Velma Smith and a friend from Dayton spent the week end with Miss Smith's parents, Mr. and Mrs. Wilbur Smith. Mr. and Mrs. Donald St John, Tippicanoe City, spent the week end with Mrs. St John's parents Mr. and Mrs. Dennis Pagett. Mr. and Mrs. Thomas Faulkner attended funeral services for the infant daughter of Mr. and Mrs. Emory Bales in Wilmington Thursday afternoon. Mr. and Mrs. Thomas Middleton moved to their new home on the Wilmington Pike last week. Mr. and Mrs. Oakley Edgington and family spent Sunday with Mr. and Mrs. Claude Jacks. The Rev. Mr. Williams, Bowersville, gave an address at Eleazer M. P. Church Sunday morning. Miss Lelia Green was the guest of Mrs. Frank Wolf the past week. Several of the farmers in this vicinity have opened their sugar camps. Laura Marie and Imogene Middleton visited their aunt, Mrs. Laura Early, over the week end. Mrs. Ida Streiff, Spring Valley, is visiting Mrs. Sara Weaver. Mrs. Daisy Rectores Xenia, has returned home after visiting Mrs. W. P. Maddux, Frankfort, O., formerly of Eleazer.

FREE LECTURE

A free illustrated lecture on the subjects "The Great Exodus and Conquest of the Western Desert" and "Modern Day Temples and Their Purposes" will be delivered at Good's Hall, 305 W. Second St., at 7:30 p. m. Friday by Elder S. Lawrence Moss, Salt Lake City, Utah. Interior pictures of the "Great Mormon Temple" there will be shown.

TOWN HEROINE

Through the heroism of Miss Ruth Morgan, night telephone operator at Waveland, Ind., funds of the town's state bank were saved after seven bank bandits had exploded nine charges of nitroglycerine in an effort to blow the vaults. Finding that telephone wires had been cut by the gang which swept into the town during the night, Miss Morgan went from door to door and aroused citizens. After a wire had been spliced on top a pole by a telephone official, Miss Morgan stuck to her post and aroused the countryside. A gun battle with the citizenry ensued, then the bandits fled with several dollars worth of stamps.

EVEN SHAVED TO HIDE HER SEX

For five years Mrs. Reveda Gray, former circus midget, sold magazines throughout the country disguised as a man, to support her two children. She even shaved to help complete the illusion of her make-up. When a sudden illness overtook her at Dayton, O., her identity was revealed at a hospital, where she sought treatment. The male attire helped her selling, she says.

In The Editor's Mail

Letters submitted for publication in this forum must be properly signed by the writer although the name will not be published if its suppression is requested. Opinions expressed are those of the writer and this newspaper does not accept responsibility for them.

Editor, Gazette:
HARD-OF-HEARING
The activities of the telephone company have never been of very much interest to people hard-of-hearing. When you can't use the telephone anyway, it doesn't make much difference whether the dial system is more of a nuisance than the regular call system. But in the laboratories of the Bell Telephone Co., which is a subsidiary of the Western Electric Co., 460 West St., New York City, much is being accomplished for the benefit of people who are hard-of-hearing. Thanks to the initiative and efforts of Dr. Harvey Fletcher, Ph. D., one of the chief engineers of the Western Electric Co. In these laboratories have been perfected three outstanding instruments. First the Western Electric Audiphone, an electrical hearing device with a very small ear piece. This instrument is away ahead of another on the market to the writer's knowledge. The very hard-of-hearing can understand ordinary conversations with it. Full cultured opportunity may again become the refreshment and joy of the hard-of-hearing if they themselves will demand that church authorities, managers of assembly and concert halls and theaters install the hearing apparatus for audience rooms, which the scientists have already developed. Cultural education, music and the drama, are within easy reach of the hard-of-hearing if they themselves will unite to procure mechanical hearing. The second instrument is of outstanding importance to everyone—I refer to the Western Electric 4A Audimeter used in giving accurate test of the hearing. Every city should have one of these instruments in their public schools for frequent hearing test of the children, for it is only when a hearing defect is discovered in time that a cure is possible, as any otologist will tell you. The third instrument is an amplifier placed on telephones enabling the very hard-of-hearing to carry on a telephone conversation. A fourth instrument is under way which ought to be of great interest to all who have an auditory defect—television. Two-way television, in which images are transmitted by wire, just as the telephone transmits sound. Perhaps in a few years television will begin to be used by banks for identification but it will be a matter of years before it will become a practical means of communication. The world movement for the

amelioration of the handicaps inherent to impairment of hearing which has grown to such proportions in the last few years may be said to be unified and solidified by one great vision the control or prevention of those physical conditions which cause the sense of hearing to fall. A program has been developed which is being adopted in many cities. This program of early detection, treatment and lip reading without any segregation of the child with incipient hearing impairment has enlisted the combined labor of the progressive otologist, the educator, the socially conscious hard-of-hearing adults. Working for future generations, the united laborers in this field entertain a reasonable hope that annihilation of hearing impairment may finally reward their efforts. In this field workers and financial support are needed. Any one interested write the American Federation of Organizations for the Hard-of-Hearing Inc., 1537 35th St., N. W., Washington, D. C.

TAILLESS SPORT PLANE
BERLIN—A tailless sport plane of twenty-four horsepower recently covered a 330 kilometer course in one hour and fifty-five minutes, an average speed of 100 miles an hour. Gunther Groenhoff, the pilot was awarded a prize of 3000 marks for his performance.

STOP Adding Fat

Medical science finds that when a certain gland is weak too much energy food turns to fat. So doctors the world over now combat that cause. They seek to stop the fat formation, then help Nature take the excess fat away. Starvation is not required. That is the method employed in Marmola prescription tablets. People have used them for 24 years—millions of boxes of them. Now in every circle slender figures show what Marmola does. Follow this proved method, this right method to reduce. Do what your friends are doing, or have done. Ask your druggist for Marmola. A book in each box tells you how and why it acts. Follow the easy directions until weight comes down to normal. Why not start today?

Many local merchants have solved the delivery problem by turning it over to us! It might pay you to investigate.

ENTERTAINS FOR BRIDE
Mrs. Thad Miller opened her home Thursday afternoon on W. Washington St. and entertained with a miscellaneous shower in honor of her daughter Mrs. Erette Sessler (nee Avis Miller), a bride of January 4. The home was suitably decorated in approaching St. Valentine's Day emblems. After a period spent in general conversation, the guests were invited to the dining room where the bride, assisted by her sister, Mrs. Cecil Long, proceeded to unwrap the many pretty and useful gifts of which she was the recipient. All present congratulated her and gave their best wishes, after which Mrs. Sessler becomingly thanked the guests for their gifts. Afterwards the hostess, aided by Mrs. Cecil Long and Miss Helen Spahr, served refreshments of angel food and devil food cake, tri-colored ice cream, heart shaped mints and coffee. Those present were; Mrs. Dale Miller, Mrs. Kate Bush, Mrs. Clarence Sigmund of Jeffersonville, Mrs. Cecil Long, Mrs. Charles Horney and daughter, Miss Thelma of Pleasant View, Mrs. George Sessler of Edgemoor, Mrs. Samuel Stoner and Mrs. Frank Whittington of Cedarville, Mrs. Walter Rhonemus of Springfield, Mrs. Howard Whittington of Dayton, Mrs. Florence Turner; Miss Helen Spahr, Mrs. Oakley Spahr, Miss Lavon Bryan, Mrs. Hamma Bland, Mrs. Edith Preusch and daughter, Miss Elizabeth, Mrs. David Robinson, Mrs. Florence Cline, Miss Louise Glover, Miss Mabel Soddors, Miss Evelyn Cushman, Mrs. Ernest Hill, Mrs. Hersel Long, Mrs. D. W. Long, Mrs. Earl Murray and Mrs. Charles Talbot, the hostess, Mrs. Thad Miller and the honored guest Mrs. Erette Sessler. Mr. and Mrs. C. C. Moon entertained to dinner Sunday their daughter, Mrs. Newell Lewis of Charleston, W. Va., and Mr. and Mrs. Charles Burr. Mrs. Homer Smith was hostess Monday afternoon to members of the Advance Club. Responses: "The Origin of American State Names," "The Father of Waters" by Mrs. Reeves, "Islands Under our Flag," by Mrs. McDorman. "The

Most Famous Battlefield in America" was given by Mrs. L. L. Gray. Mrs. Dorsey Nichols entertained members of her bridge club Friday afternoon at her home. The hostess served a delicious refreshment course. Mr. and Mrs. Hall Shigley of Marion, O., spent Sunday with the former's parents, Mr. and Mrs. Frank Shigley and family. Mr. and Mrs. Oscar McDorman and family of Springfield spent Sunday with Mr. and Mrs. Wm. McDorman. Mr. and Mrs. Jack Edggs of Dayton, spent the week end with Mr. C. N. Smith and family. Mrs. Ella Pease of Dayton, who has been spending the past few weeks with Mrs. A. J. Christopher returned to her home Sunday. Mrs. Goldie Stackhouse and Miss Mildred Toland were week end guests of Mr. and Mrs. Harley Moore and daughter of Dayton. Mr. Bruce Parker of Dayton visited his mother, Mrs. Elizabeth Parker Wednesday. Mrs. Ernest Thuma was hostess Saturday afternoon at her home to members of the George Slagle Chapter, D. A. R. Mrs. Alfred Ogan gave several musical numbers followed by an instrumental duet by Mrs. Robert Moorman and Mrs. Tom Gordin. A paper, "Stage Coach and Tavern Days" was given by Mrs. Elff of London. Mrs.

Hot Rivets and Cool Smokes

A rivet missed...
And down it hissed
Red hot... a danger and a menace.
The foreman said
"Hey, listen, 'Red'—
This ain't no ping-pong game,
nor tennis!

"I seen you cough,
That put you off...
An' got yer throwin' hand to jerkin'—
OLD GOLD'S your bet.
A cigarette
You better learn to smoke
while workin'.

"You'll like 'em, sure!
OLD GOLDS are pure
The natural leaf that's
smooth as honey.
A dozen packs
Won't cause no hacks
Nor coughs to make yer
aim go funny!"

SMOKE PURE-TOBACCO OLD GOLDS

[No "artificial flavors" to scratch the throat or taint the breath... Not a cough in a carload!]
